Sub: Requirement of digital PLCC link for Direct voice communication with SLDC,Kalva

Dear Sir,

In continuation with above subject,400 KV Jaigad is one of the important generation station in 400 KV grid network. From this 400 kV Sation, 400 kV double circuits for 400 KV New Koyna and 400 KV Karad receving Station are emanating. Between these 400 kV station as well as SLDC,Kalwa direct and reliable voice communication is required. 400 kV New Koyna and 400 kV Karad receiving stations are connected by MSETCL OPGW network. These stations are having VOIP fast and reliable optical network. To avail this network for 400 kV Jaigad generation sub station, we will have to establish IEC104 communication link. For this purpose IEC104 supported PLCC panel will be required. So, 400 KV Jaigad will be connected to MSTCL OPGW network either via 400 kV Karad receiving station or 400 kV New Koyna receiving station. It is requested make arrangement of 1No. of Digital PLCC link between 400kV Jaigad & 400kV New Koyna or 400kV Jaigad & 400kV Karad.

This for information and needful action please.

(Mrs. S.T.Kulkarni)
Superintending Engineer(I/C)
PAC Circle, Karad.
