

Sustainability Policy

JSW Energy Ltd. (JSWEL) believes in creating continuous growth in stakeholders' value while balancing utilisation of natural resources and enhancing social development in its imperatives.

Consistent with the Group Core Values, we pursue our business objectives ethically, with transparency and accountability to stakeholders across the value chain.

JSWEL is committed to mainstream responsible corporate behaviour without compromising on social and environmental well-being.

We provide our employees and other stakeholders equal opportunities and are committed to clean, healthy and safe operations in the pursuit of energy security.

Our organisation shall strive to perform efficiently and effectively with the help of:

- **A dynamic leadership,**
- **Adherences to core values,**
- **An agile management framework,**
- **Practices and processes that enhance the long-term competitive advantage of the organisation.**

The leadership of JSWEL commits to provide the necessary resources to achieve our goals and realise our vision.
