(B) **Use of Estimates**

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates and differences between actual results and estimates are recognized in the periods in which the results are known/ materialize.

(C) **Fixed Assets and Depreciation**

Fixed Assets are stated at their cost of acquisition or construction less accumulated depreciation and impairment losses. Cost comprises of all costs incurred to bring the assets to their location and working condition up to the date the assets are put to use.

Expenditure incurred during construction period: Apart from costs related directly to the construction of an asset, indirect expenses incurred up to the date of commencement of commercial production which are incidental and related to construction are capitalized as part of the construction cost. Income, if any, earned during the construction period is deducted from the indirect costs.

Depreciation on assets is provided, pro-rata for the period of use, by the Straight Line Method (SLM) as prescribed in Schedule II to the Act.

An asset is considered as impaired in accordance with Accounting Standard 28 on Impairment of Assets, when at balance sheet date there are indications of impairment and the carrying amount of the asset, or where applicable the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the asset's net selling price and value in use). Income taxes are accounted for in accordance with Accounting Standard 22 on Accounting for Taxes on Income. Taxes comprise both current and deferred tax.

Current tax is measured at the amount expected to be paid/ recovered from the revenue authorities, using the applicable tax rates and laws.

The carrying amount of deferred tax assets at each balance sheet date is reduced to the extent that it is no longer reasonably certain that sufficient future taxable income will be available against which the deferred tax asset can be realized.

Tax on distributed profits payable in accordance with the provisions of section 115O of the Income Tax Act, 1961 is in accordance with the Guidance Note on Accounting for Corporate Dividend Tax regarded as a tax on distribution of profits and is not considered in determination of profits for the year.
