Sub: Disclosure of Information under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI Listing Regulations”) – Corporate Presentation.

Dear Madam / Sir

Pursuant to Regulation 30 of the SEBI Listing Regulations, as amended from time to time, our corporate presentation is attached.

Further, the corporate presentation is also available on the Company’s website at <https://www.jsw.in/investors/energy/jsw-energy-fy-2023-24-financials-investor-presentations>.

This is for your information and record.

Yours faithfully,

For **JSW Energy Limited**

Monica Chopra
Company Secretary & Compliance Officer

Delivering Promises Realising True Potential

Corporate Presentation | January 2024

Forward Looking and Cautionary Statement (1/2)

THIS PRESENTATION AND ITS CONTENTS ARE CONFIDENTIAL AND ARE NOT FOR DISTRIBUTION, IN WHOLE OR IN PART, DIRECTLY OR INDIRECTLY, IN OR INTO OR FROM THE UNITED STATES OF AMERICA.

Important Notice

This presentation and the accompanying slides (the “**presentation**”) contains selected information about the activities of JSW Energy Limited (the “**Company**”) as at the date of the presentation. It does not purport to present a comprehensive overview of the Company or contain all the information necessary to evaluate an investment in the Company.

No Offering

This presentation is for information purposes only and is not a prospectus, disclosure document or other offering document under any law, nor does it form part of any present or future invitation, recommendation or offer to purchase or sell securities of the Company in any jurisdiction. No part of this presentation, nor the fact of its distribution, should form the basis of, or be relied on in connection with any contract or commitment or investment decision whatsoever.

If there is any subsequent offering of any security of the Company, it will be made pursuant to separate and distinct offering documentation, and in such case the information in this presentation will be superseded in its entirety by any such offering documentation in final form. In addition, as this presentation only contains general, summary and selected information about the Company, it may omit material information about the Company and is not a complete description of the Company’s business and the risks relating to it. Therefore, this presentation should not form the basis of any investment decision to purchase or sell the Company’s securities. Any decision to purchase securities in the context of an offering of securities (if any) should be made solely on the basis of information contained in the offering documentation published in relation to such offering.

Restrictions on Distribution

This presentation is being communicated to selected persons who have professional experience in matters relating to investments for information purposes only and does not constitute a recommendation regarding any securities of the Company. Other persons should not rely or act upon this presentation or any of its contents.

The contents of this presentation are strictly confidential. This presentation is being provided solely for the information of the attendees and may not be copied, reproduced or redistributed, in whole or in part, to any other person in any manner without the Company’s written consent. The distribution of this presentation in certain jurisdictions may be restricted by law and recipients should inform themselves about and observe any such restrictions. In particular, in the United States, this presentation may not be provided only to “qualified institutional buyers” as defined in Rule 144A under the Securities Act.

This document does not constitute or form part of, and should not be construed as, an offer to sell or issue or the solicitation of an offer to purchase securities of the Company or any member of the Company or an inducement to enter into investment activity, in any jurisdiction. In particular, this presentation does not constitute or form part of any offer to purchase, a solicitation of an offer to purchase, an offer to sell or an invitation or solicitation of an offer to sell, issue or subscribe for, securities in or into the United States or in any other jurisdiction.

Disclaimer

This presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, as to and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information contained herein or any statement made in this presentation. The presentation has not been independently verified.

Forward Looking and Cautionary Statement (2/2)

The information contained in and the statements made in this presentation should be considered in the context of the circumstances prevailing at the time. There is no obligation to update, modify or amend such information or statements or to otherwise notify any recipient if any information or statement set forth herein, changes or subsequently becomes inaccurate or outdated. The information contained in this document is provided as at the date of this document and is subject to change without notice.

No Investment Advice

Any investor that intends to deal in any existing or prospective securities of the Company is required to make its own independent investigation and appraisal of the business and financial condition of the Company and the nature of the securities at the time of such dealing. Attendees are deemed to represent that they possess, either individually or through their advisers, sufficient investment expertise to understand the risks involved in dealing in any such securities.

No one has been authorised to give any information or to make any representations other than those contained in this presentation, and if given or made, such information or representations must not be relied upon as having been authorised by the Company or its affiliates.

The information in this presentation does not constitute financial advice (nor investment, tax, accounting or legal advice) and does not take into account an investor's individual investment objectives, including the merits and risks involved in an investment in the Company or its securities, or an investor's financial situation, tax position or particular needs. No recommendation is made as to how investors should exercise any investment decision.

Past and Future Performance

Past performance information in this presentation should not be relied upon as an indication of (and is not an indicator of) future performance.

This presentation contains "forward-looking statements". Such forward-looking statements involve known and unknown risks, uncertainties and other important factors beyond the Company's control that could cause the actual results, performance or achievements of any member of the Company to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Similarly, statements about market and industry trends are based on interpretations of current market conditions which are also subject to change. These statements may also assume the success of the Company's business strategies. The success of any of these strategies is subject to uncertainties and contingencies beyond the Company's control, and no assurance can be given that any of the strategies will be effective or that the anticipated benefits from the strategies will be realised in the period for which the forward-looking statements may have been prepared or otherwise. Attendees are cautioned not to place undue reliance on forward-looking statements. No representation, warranty or assurance (express or implied) is given that the occurrence of the events expressed or implied in any forward-looking statements in this presentation will actually occur.

Third Party Data

This document contains data sourced from and the views of independent third parties. In replicating such data in this document, the Company makes no representation, whether express or implied, as to the accuracy of such data. The replication of any third party views in this document should not necessarily be treated as an indication that the Company agrees with or concurs with such views.

By participating in this presentation, attendees agree to be bound by the foregoing limitations.

JSW Group Overview

Amongst India's leading
Conglomerates with a
turnover of US\$23 Bn¹

JSW Energy

- Power producer with 9.8 GW of generation portfolio by CY24,
- Targeting 20GW generation + 40GWh of Storage by FY30
- Market Cap: ~US\$ 9.8 Bn

Infrastructure

- Second largest commercial port operator (as per Crisil Report) with 170 mtpa capacity
- Operates environmental-friendly seaports & terminals
- Equity listing in Oct 2023, Market Cap: ~US\$ 5.6 Bn

Paints

- India's new age Paints company offering a path-breaking Any Colour at One Price
- State-of-the-art Facilities in Maharashtra and Karnataka

Sports

- Supporting Indian sports ecosystem
- Teams Owned: Bengaluru FC, Delhi Capitals, Haryana Steelers

Steel

- India's largest steel producer in terms of installed capacity
- Capacity of 29.7 mtpa, growing to 38.5 mtpa by FY25
- Targeting 50 mtpa capacity by FY31
- Market Cap: ~US\$ 24.0 Bn

Cement

- Current capacity of 18.6mtpa, with a medium term target of 25mtpa
- Product range includes PSC, GGBS, Concrete & Construction Chemicals

Ventures

- Early-stage, tech-focused, VC fund
- Portfolio: Purple, LimeTray, Homelane, CureSkin and ZvloV

Foundation

- Social development arm of JSW Group
- Positively impacts more than a million lives across India

JSW Energy : Transitioning towards green energy

Mission

Providing Reliable, Affordable and Sustainable power

Vision

To be a leading integrated power company with presence across value chain

FY2030 To become a 20 GW company and 40GWh Energy Storage

FY2050 To become carbon neutral by 2050

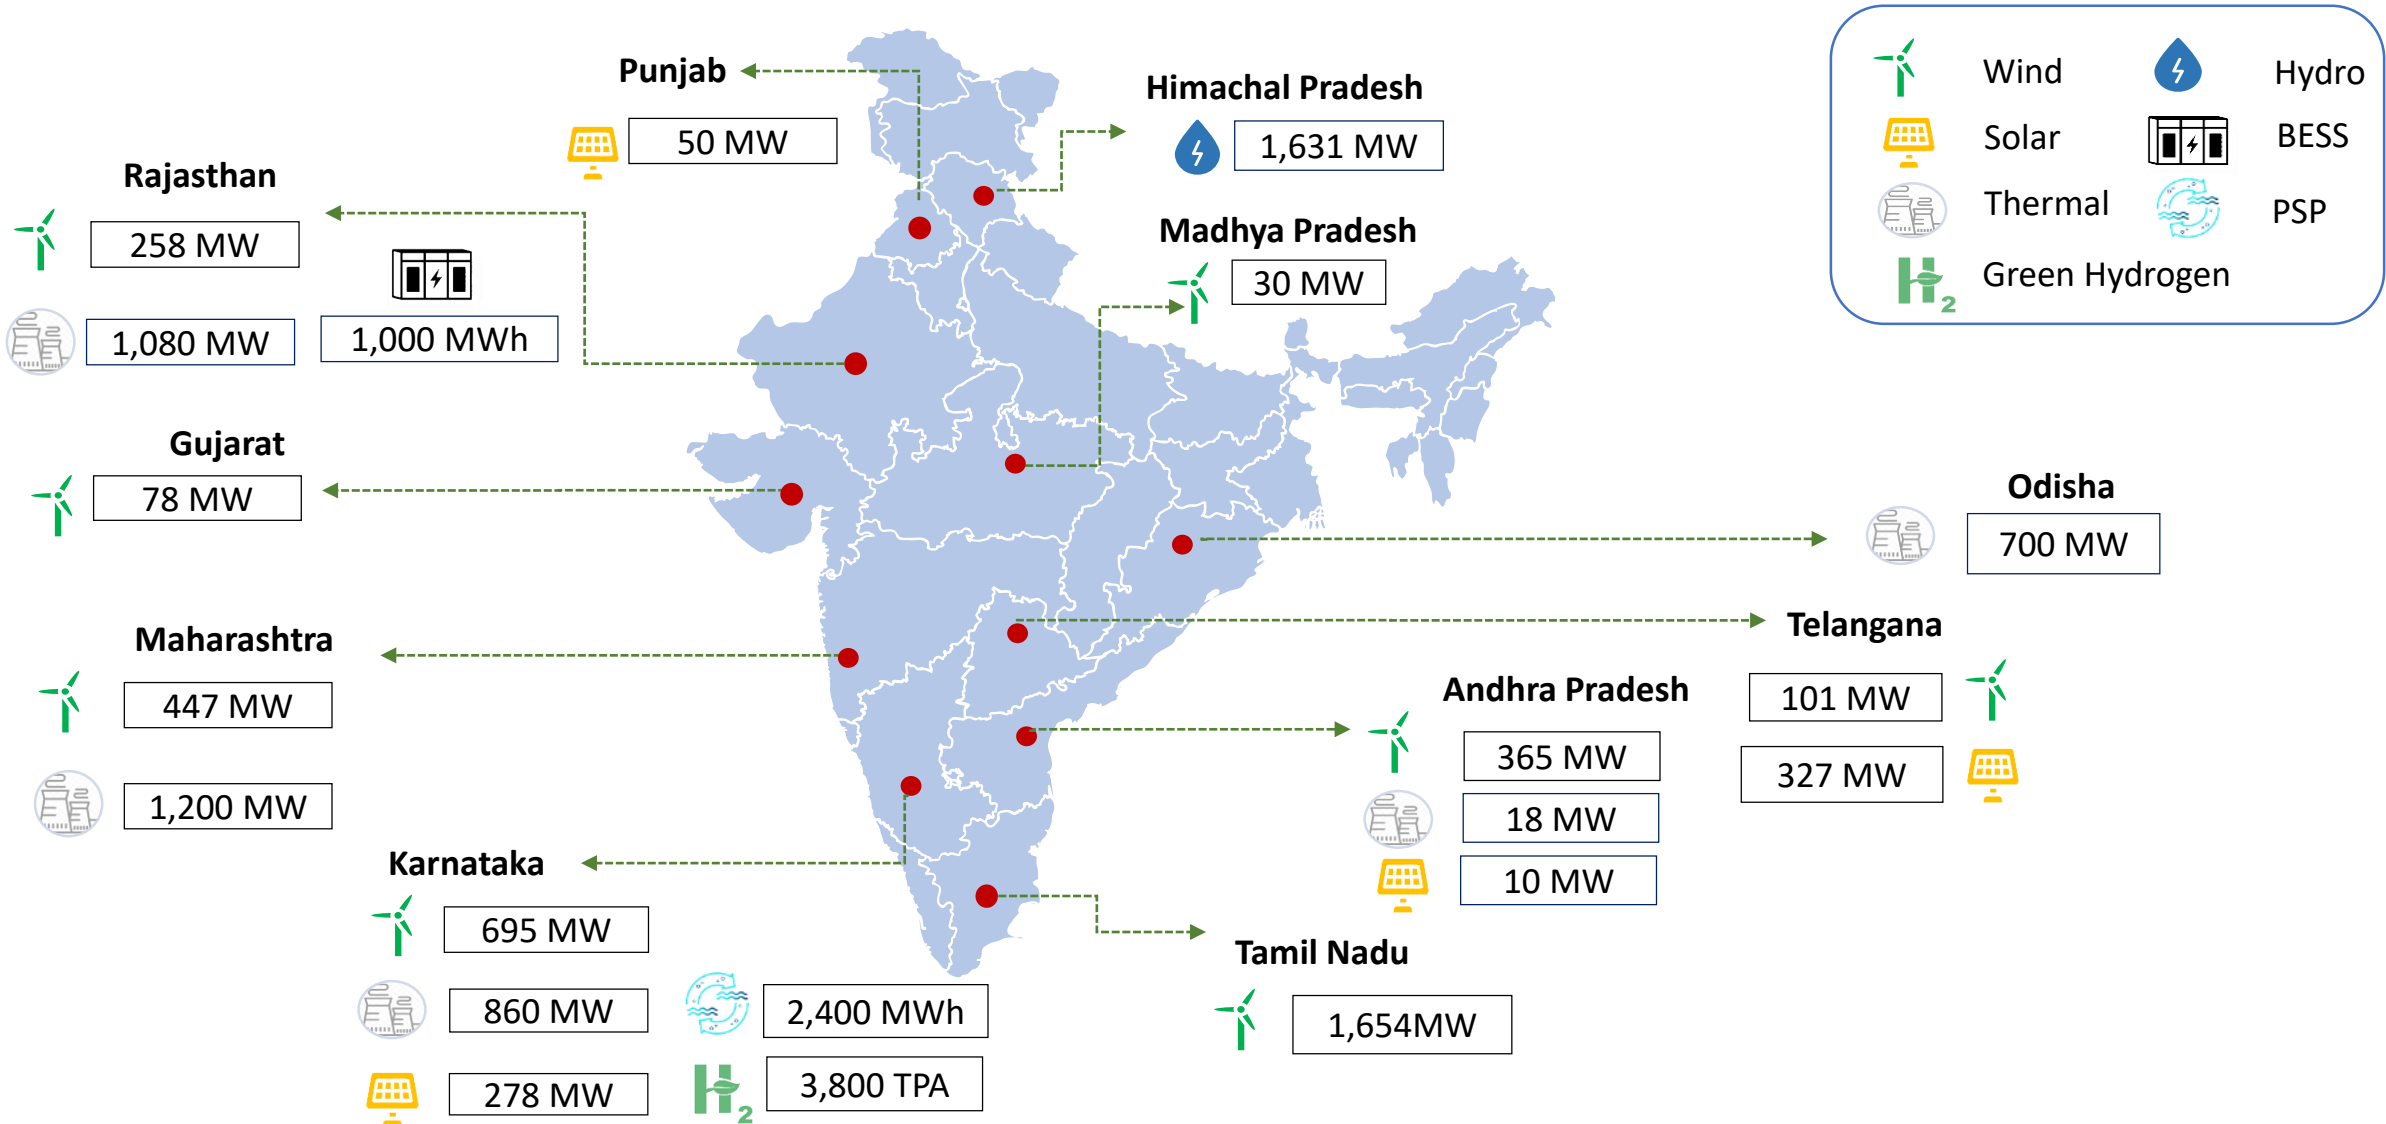

JSW Energy – Presence across the value chain

Well placed to achieve 10 GW of generation capacity ahead of stated timeline of 2025 with foray into New Age Businesses

Pan India Footprint of Diverse Asset Base by CY24

Operational Capacity by CY 24 (9,792 MW)

• Map of India representation – scaling may not be accurate

Well Diversified Portfolio – Focused on Maximising Cash Returns

Capacity Breakdown

Generation 9,792 MW

**Under-construction
2,603 MW**

Wind 2,013 MW
Thermal 350 MW*
Hydro 240 MW

Installed 7,189 MW

Thermal 3,508 MW*
Wind 1,615 MW
Hydro 1,391 MW
Solar 675 MW

Commissioning by CY24

Storage 3.4 GWh locked in

**BESS
1.0 GWh**

**Hydro PSP
2.4 GWh**

* Ind-Barath Unit-1 (350 MW) was commissioned post the quarter ended Q3 FY24

Diversified Offtakers

Current open capacity – 15%

Current Exposure to Group Captive - 20%

**Open Capacity
12%**

**PCKL
70%**

Agenda

Increased green cover across operations Implementation of Biodiversity Management plan at Barmer Plant .

Key Highlights

Climate Change

- Increased share of renewable energy for deep decarbonisation
- Wind Projects – Tuticorin – generation started and commissioned 232.2 MW till Q3 FY 24.
- Continuous focus on process improvements to reduce GHG emission

Water Security

- Maintained zero liquid discharge across operations
- Optimizing utilization of rain water harvesting system. 44,866 m3 water utilized by Ratnagiri Plant by this method
- Reuse of treated effluent of Sewage Treatment Plant for horticulture

Waste

- Reutilising pond ash as well as bottom ash in Boiler.
- Continue 100% Ash utilization initiatives at all plants through tie-ups with cement factories & similar businesses
- Over 19,200 MT Fly ash exported by Ratnagiri Plant

Air Emissions

- Ensuring ESP (Electrostatic Precipitator) Fields availability
- Process efficiency improvements being done in all plant locations
- Lime Dozing system availability and parameters optimization at Barmer to reduced air emissions

Biodiversity

- In Q 3 FY24 2,271 saplings of various native species planted around the operational boundaries of Plants. Mango plantation of 7,800 trees out of 10,000 planned completed at Ratnagiri Plant.
- Biodiversity Assessment – Phase 2 is in process for Ratnagiri Plant

Performance

Ash Utilisation (%)

CO2 intensity (tCO2e/MWh)

PM Emissions (kg/MWh)

SOx Emissions (kg/MWh)

NOx Emissions (kg/MWh)

Awards and Recognition

JSW Energy Limited, Vijayanagar received CEE Best Energy Efficient Award for CPP-4 unit in Dec 23

Received Green Maple Foundation Wellness at work Diamond Award in Nov 23

Vijayanagar Plant Received British Safety Council Sword of Honor at London in Nov 23

“Platinum Award in the Power generation sector for outstanding achievement in Occupational Health and safety” Organized by Sustainability Development Foundation

Ratnagiri Plant received 23 rd Greentech Environment award-2023 for Environment Excellence at Sonmarg- J & K .

“Horticulture Development Award” Organized by Green Maple Foundation

Strong Board Oversight and Leadership

Mr. Sajjan Jindal

Our Core Principles

Accountability

Social Responsibility

Transparency

Environment

Integrity

Regulatory Compliance

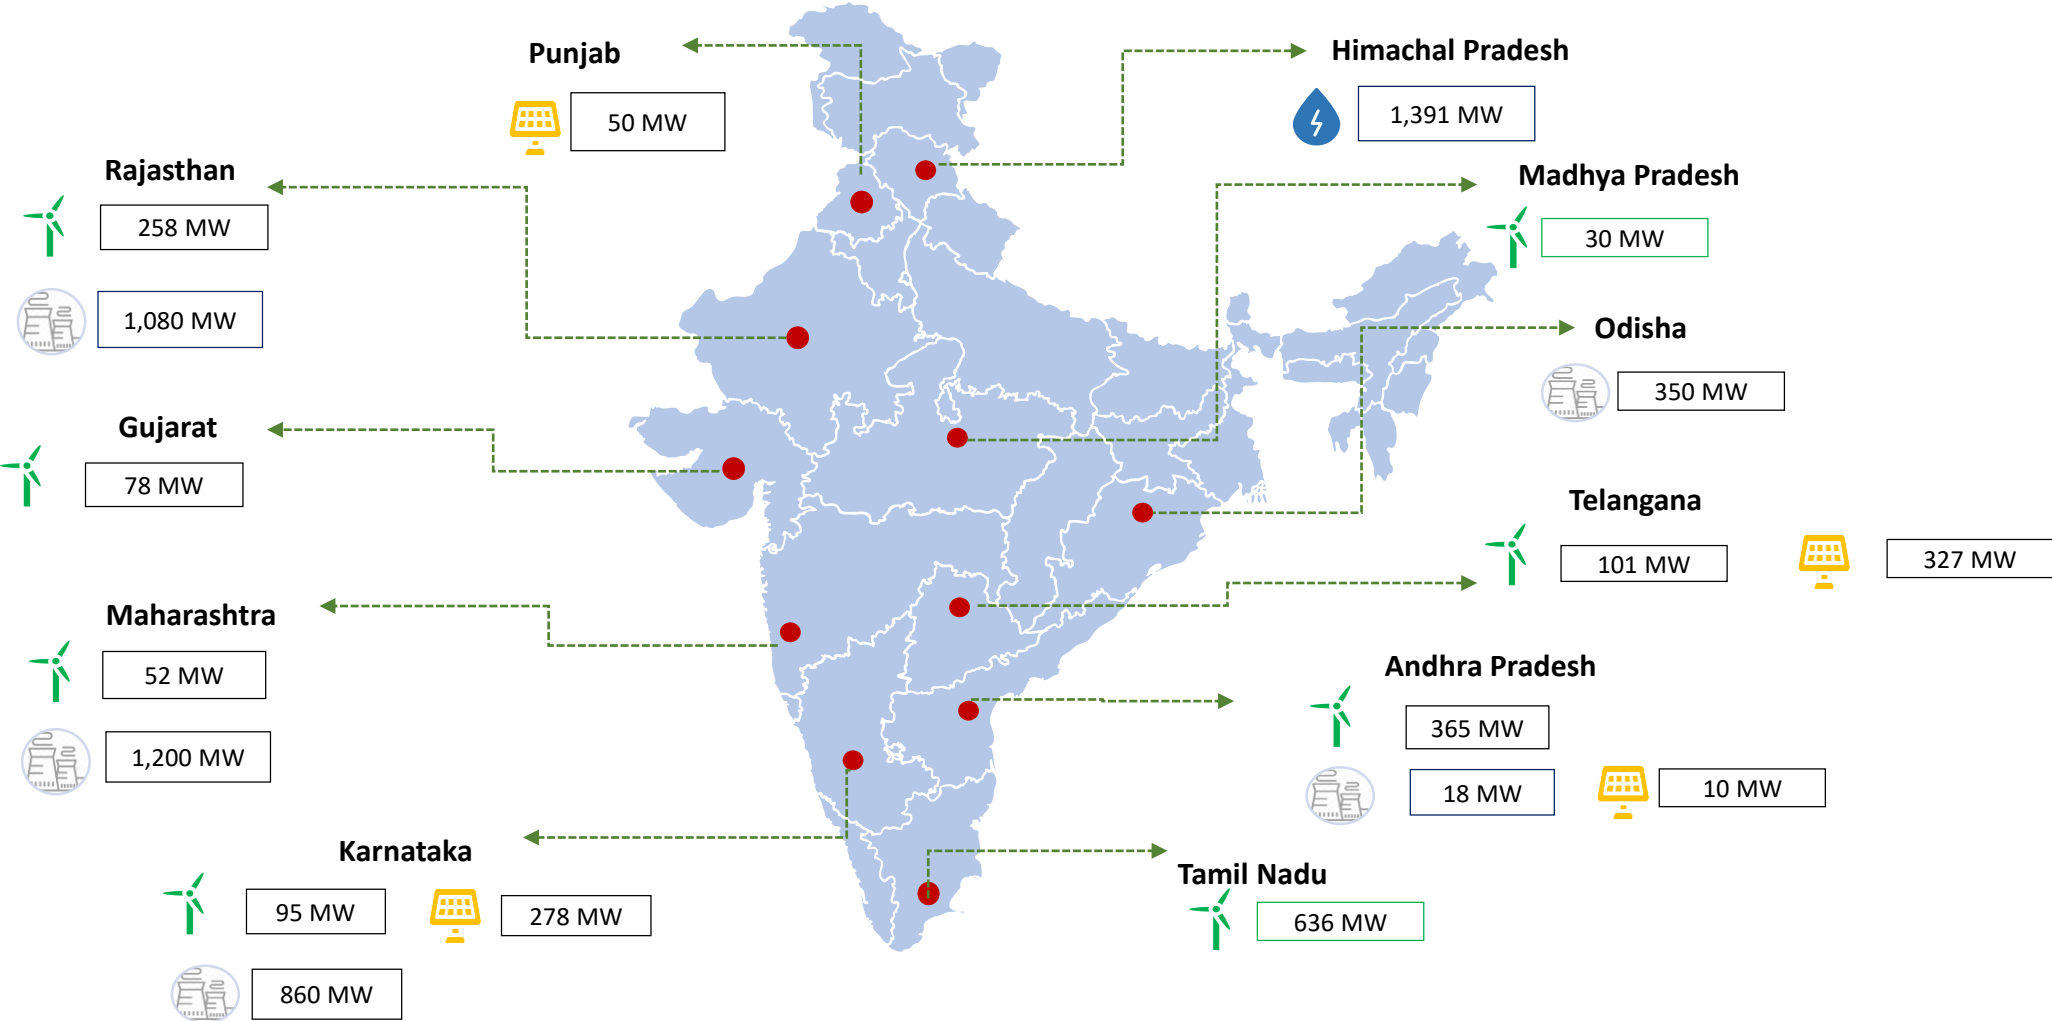

Healthy Operations and Financials

Sholtu Hydro Power Plant - Turbine

Operating Locations: Pan India presence as of Jan-24

Current Operational Capacity (7,189 MW)

Operating Plants across 11 states

10 MW Rooftop distributed across various sites

Map of India representation – scaling may not be accurate

Healthy Operations and Financials

85%

Capacity under LT PPA¹

~90%

EBITDA contribution from LT

~22BUs

Net Generation

₹ 3,138Cr

Cash PAT²

Figures are for FY23

- Steady operations and robust financial: Track record of strong yearly cash profits of ~₹3,138 Crores.
- High LT PPA tie-up rendering high cash flow visibility
 - Almost all LT PPA under two-part tariff (imported/domestic fuel cost/forex pass through)
 - Remaining Avg. Life of PPA: ~18 years
 - Remaining Avg. Life of Assets: ~24 years
- Diversified off-takers
 - All plants placed favorably in Merit Order Despatch
 - Hydro projects under 'must-run' status
 - Trade receivables (excl. Acquired RE Portfolio) at ₹ 1,857 Cr equaling to 69 receivable days as on Dec'31, 2023

Business model with steady cashflow generation despite sectoral headwinds

Net Generation (BUs)

Total Income³ (₹ Crore)

EBITDA & EBITDA Margin (₹ Crore)

Cash PAT² (₹ Crore) and Return on Adj.Net Worth

Robust balance sheet to support renewable-led growth

4.6x

Net Debt/EBITDA

1.3x

Net Debt/Equity

8.58%

Wt. average cost of debt *

69

Receivable Days**

Figures as of December 31, 2023

- ✓ Strong Liquidity with healthy cash balances: ₹ 2,867 Crore as of Dec 31, 2023
- ✓ Financial flexibility enhanced by equity investments:
 - Holding 7Cr (70mn) JSW Steel shares of Value¹: ₹ 5,640 Cr
- ✓ Healthy Credit Ratings:
 - India Rating & Research: AA (Stable outlook)
 - ICRA Ltd: ICRA AA (Stable)
- ✓ Access to diverse pools of liquidity
- ✓ Operating portfolio generating healthy CF & mid-teen equity IRR
- ✓ Weighted average cost of debt* is 8.58% as of Dec 31, 2023

Robust balance sheet & strong cashflow available to pursue growth

ND/EBITDA for Operational Projects at 3.2x (Dec-23)³

1 Value of JSW Steel Share holdings as on Dec 31 2023

2 Conversion based on USD = INR spot rate as of respective date

* Including Acquired RE Portfolio's debt post refinancing and debt sizing package which is in place | ** Excl Acquired RE Portfolio receivables | # ND/Proforma EBITDA excluding debt on under-construction projects

Net Debt Movement

Particulars in ₹ Cr

- Capital Work- in-Progress (CWIP)
- Operational Projects

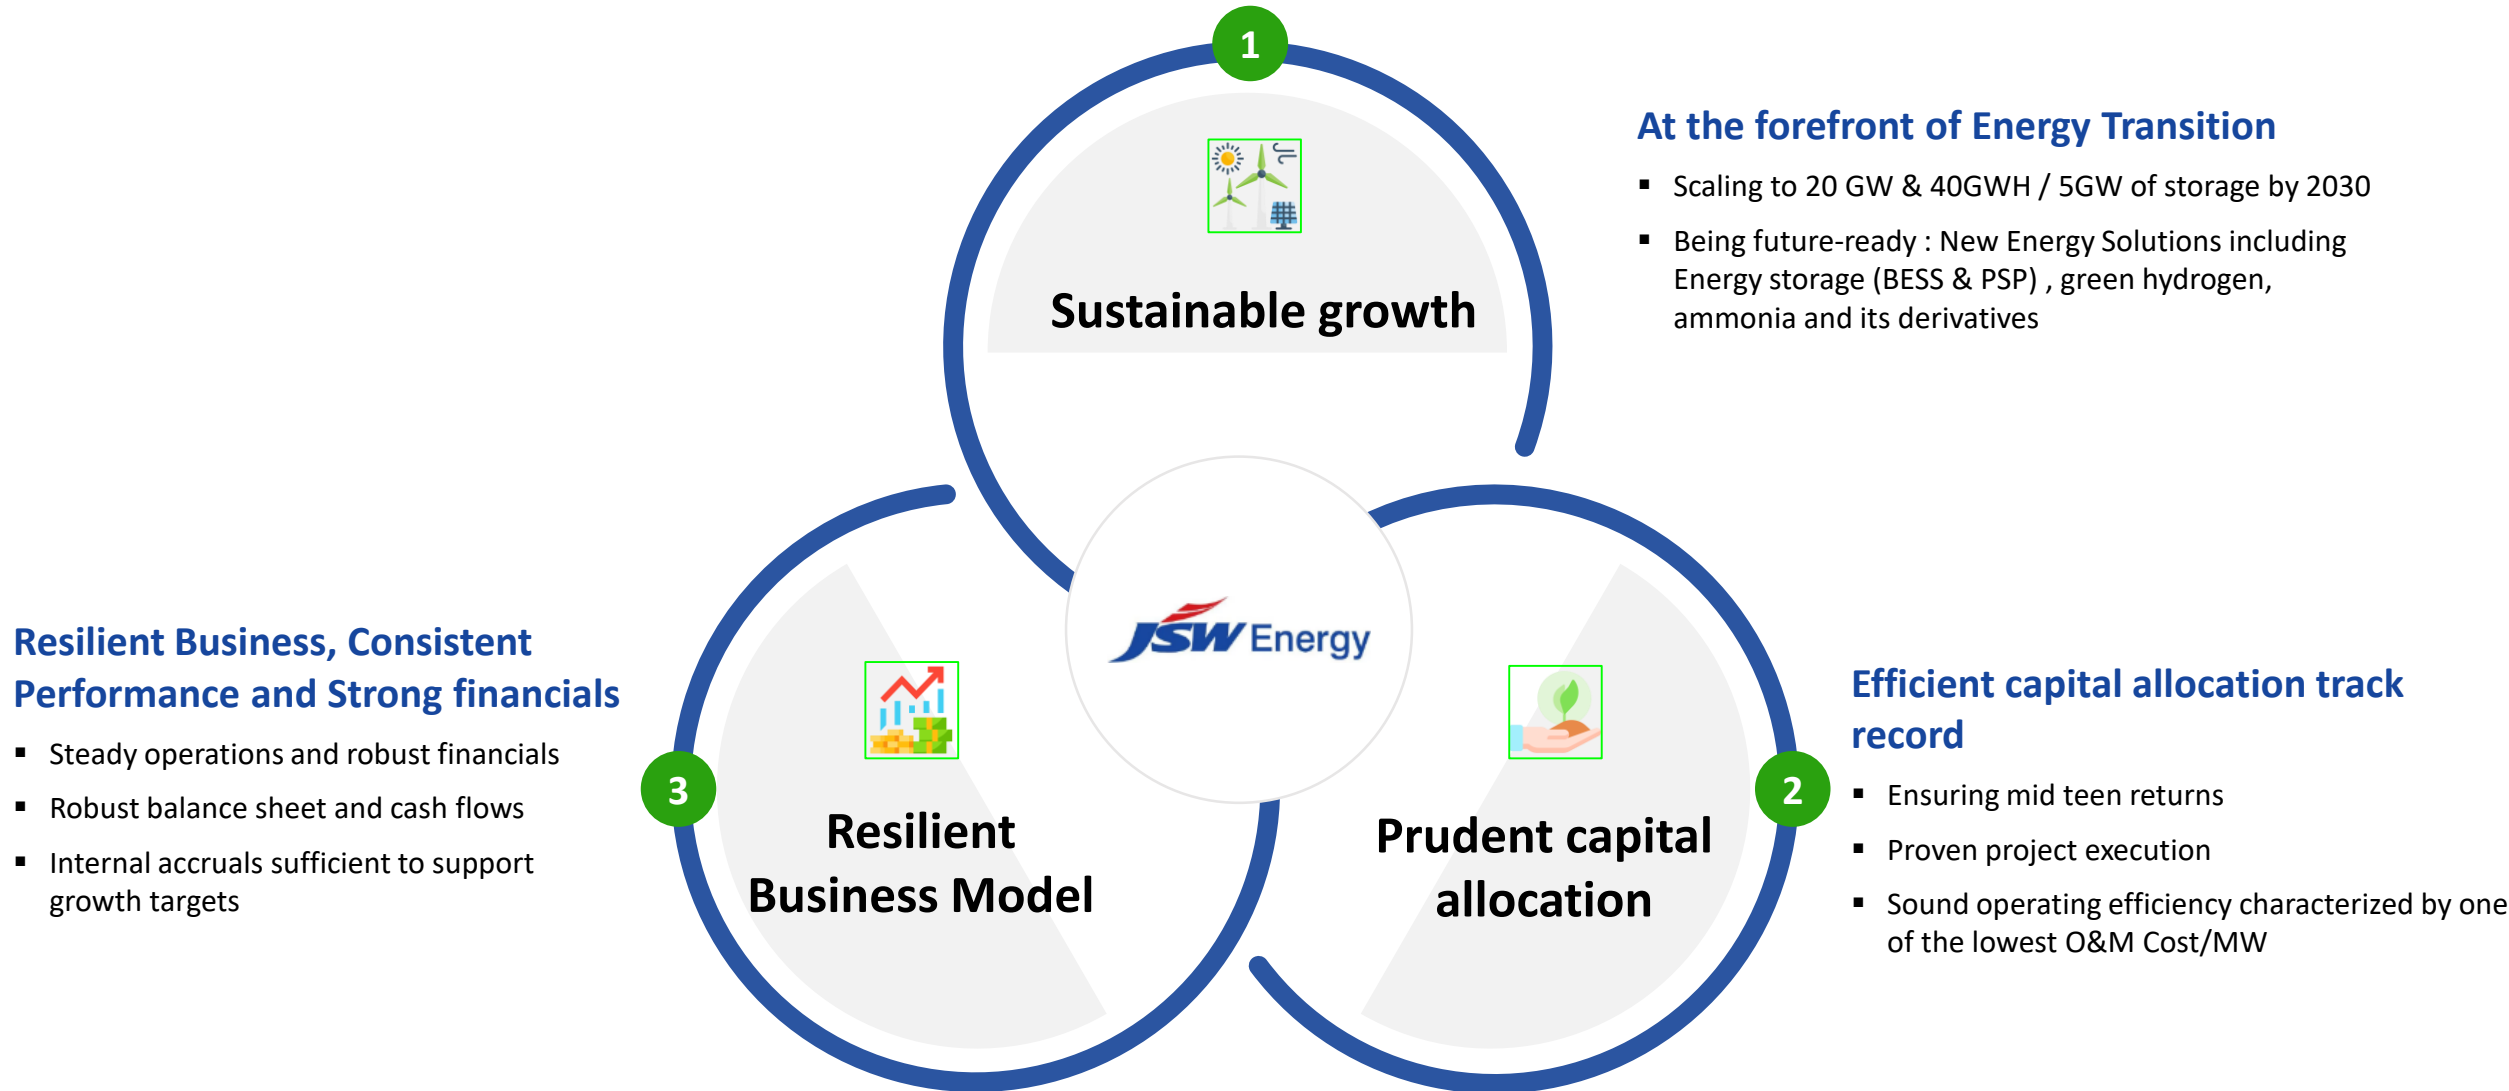

Sustainable ND/EBITDA is within the guided range of 3.5x-4.0x

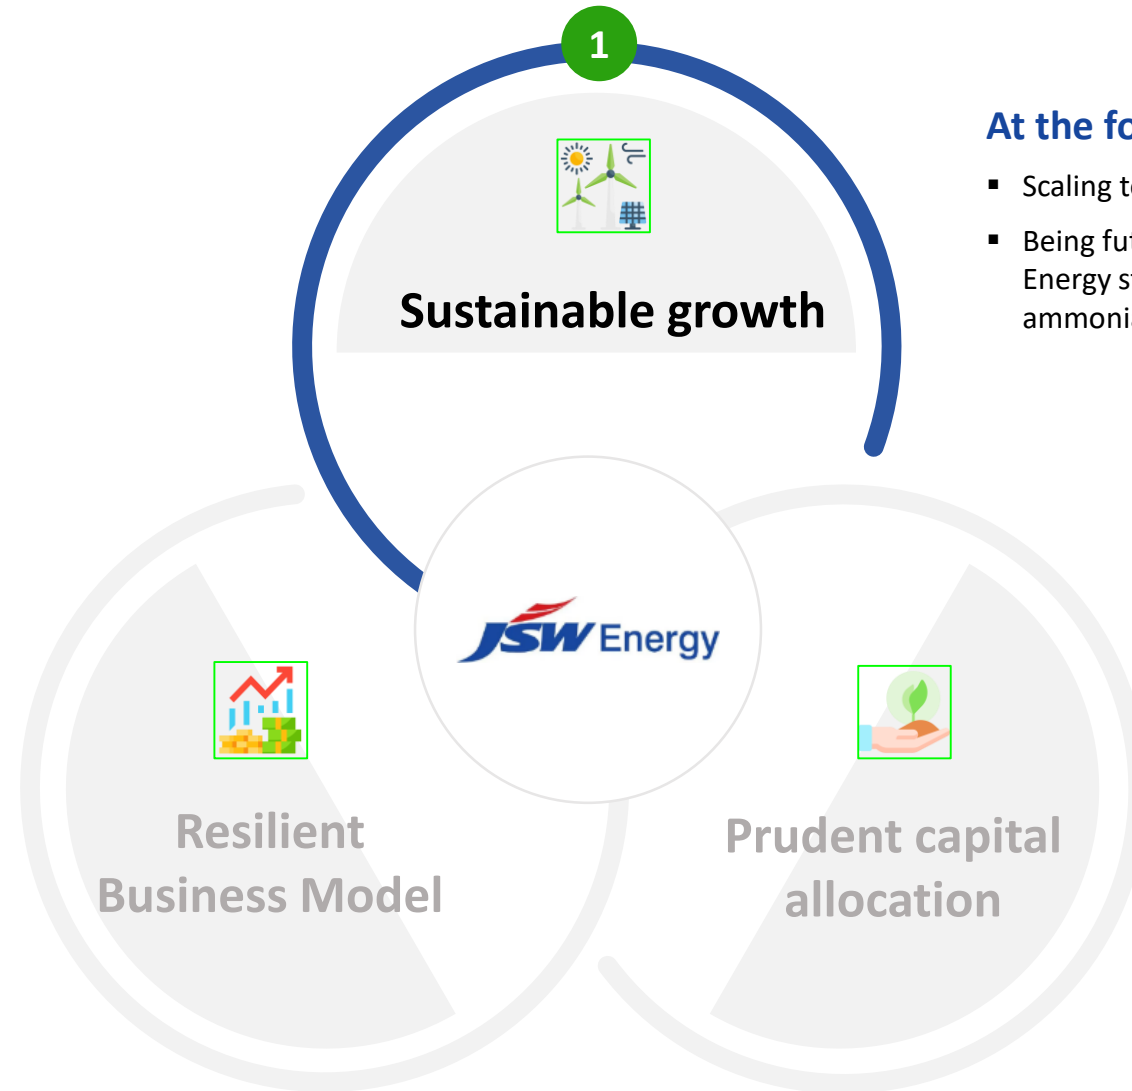

Why JSW Energy ?

- Investment Story
- Key Highlights

An aerial photograph of a large dam and reservoir. The dam is a concrete structure with multiple spillways, situated in a valley. The reservoir is filled with greenish water. The surrounding landscape is hilly and covered with sparse vegetation. A prominent blue diagonal line runs across the image from the top left towards the bottom right.

Committed to reaching
Net Zero emissions by 2050

At the forefront of Energy Transition

- Scaling to 20 GW & 40GWH / 5GW of storage by 2030
- Being future-ready : New Energy Solutions including Energy storage (BESS & PSP) , green hydrogen, ammonia and its derivatives

Significant Market Opportunity: Power Demand Growth to be met by RE

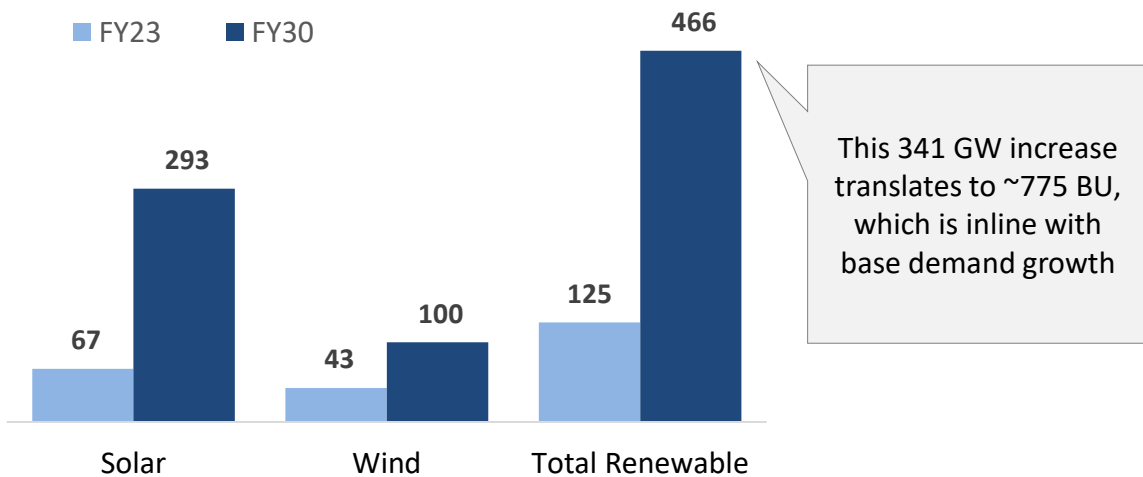

Historical Power Demand Growth

Similar growth expected in power demand over next decade

Demand to be met incrementally with Renewable Energy

Rapid Urbanization and universal electrification to drive power demand

- 

India is world's third largest power producer, however has a low per capita consumption (~1/3rd of world average), this provides huge opportunity for growth
- 

Sustained economic growth has driven power demand in India, going forward, unlocking of demand from increased rural electrification and rapid urbanization to drive demand for power

Participating in India's Green Transition

India's share of Renewables is projected to increase from 41% in FY 23 to 61% in FY 30

Changing Environment and our Approach

- JSW Energy's strategy is to grow its capacity to 20 GW by FY30 mainly through renewable capacity addition, which is in line with India's renewable energy growth trajectory
- Being part of JSW Group which has its presence across multiple business including steel, cement, infra and paints gives us the opportunity to further grow through group captive

Domain	Environment	Our Approach
Capital	<ul style="list-style-type: none"> • High cost of borrowing due to interest rate hike 	<ul style="list-style-type: none"> • Bidding assumptions take into account interest cycles through life of project
Supply Chain	<ul style="list-style-type: none"> • BCD on imported Solar Panels/Cells • Uncertainty of supply of Solar panels and WTGs 	<ul style="list-style-type: none"> • De-risking of supply chain through backward integration
Policy and Fiscal Support	<ul style="list-style-type: none"> • Draft Hydro PSP and Green Hydrogen policy • Budgetary support for Green Transition 	<ul style="list-style-type: none"> • Early Mover in hydro PSP and BESS
Business Model	<ul style="list-style-type: none"> • Reduced bidding intensity combined with lower tariff discovery 	<ul style="list-style-type: none"> • Bidding discipline with a targeted IRR at P90

Energy Storage critical in India's Energy Transition

Peak Demand vs Supply from Conventional Sources (GW)

Storage Capacity GWh*

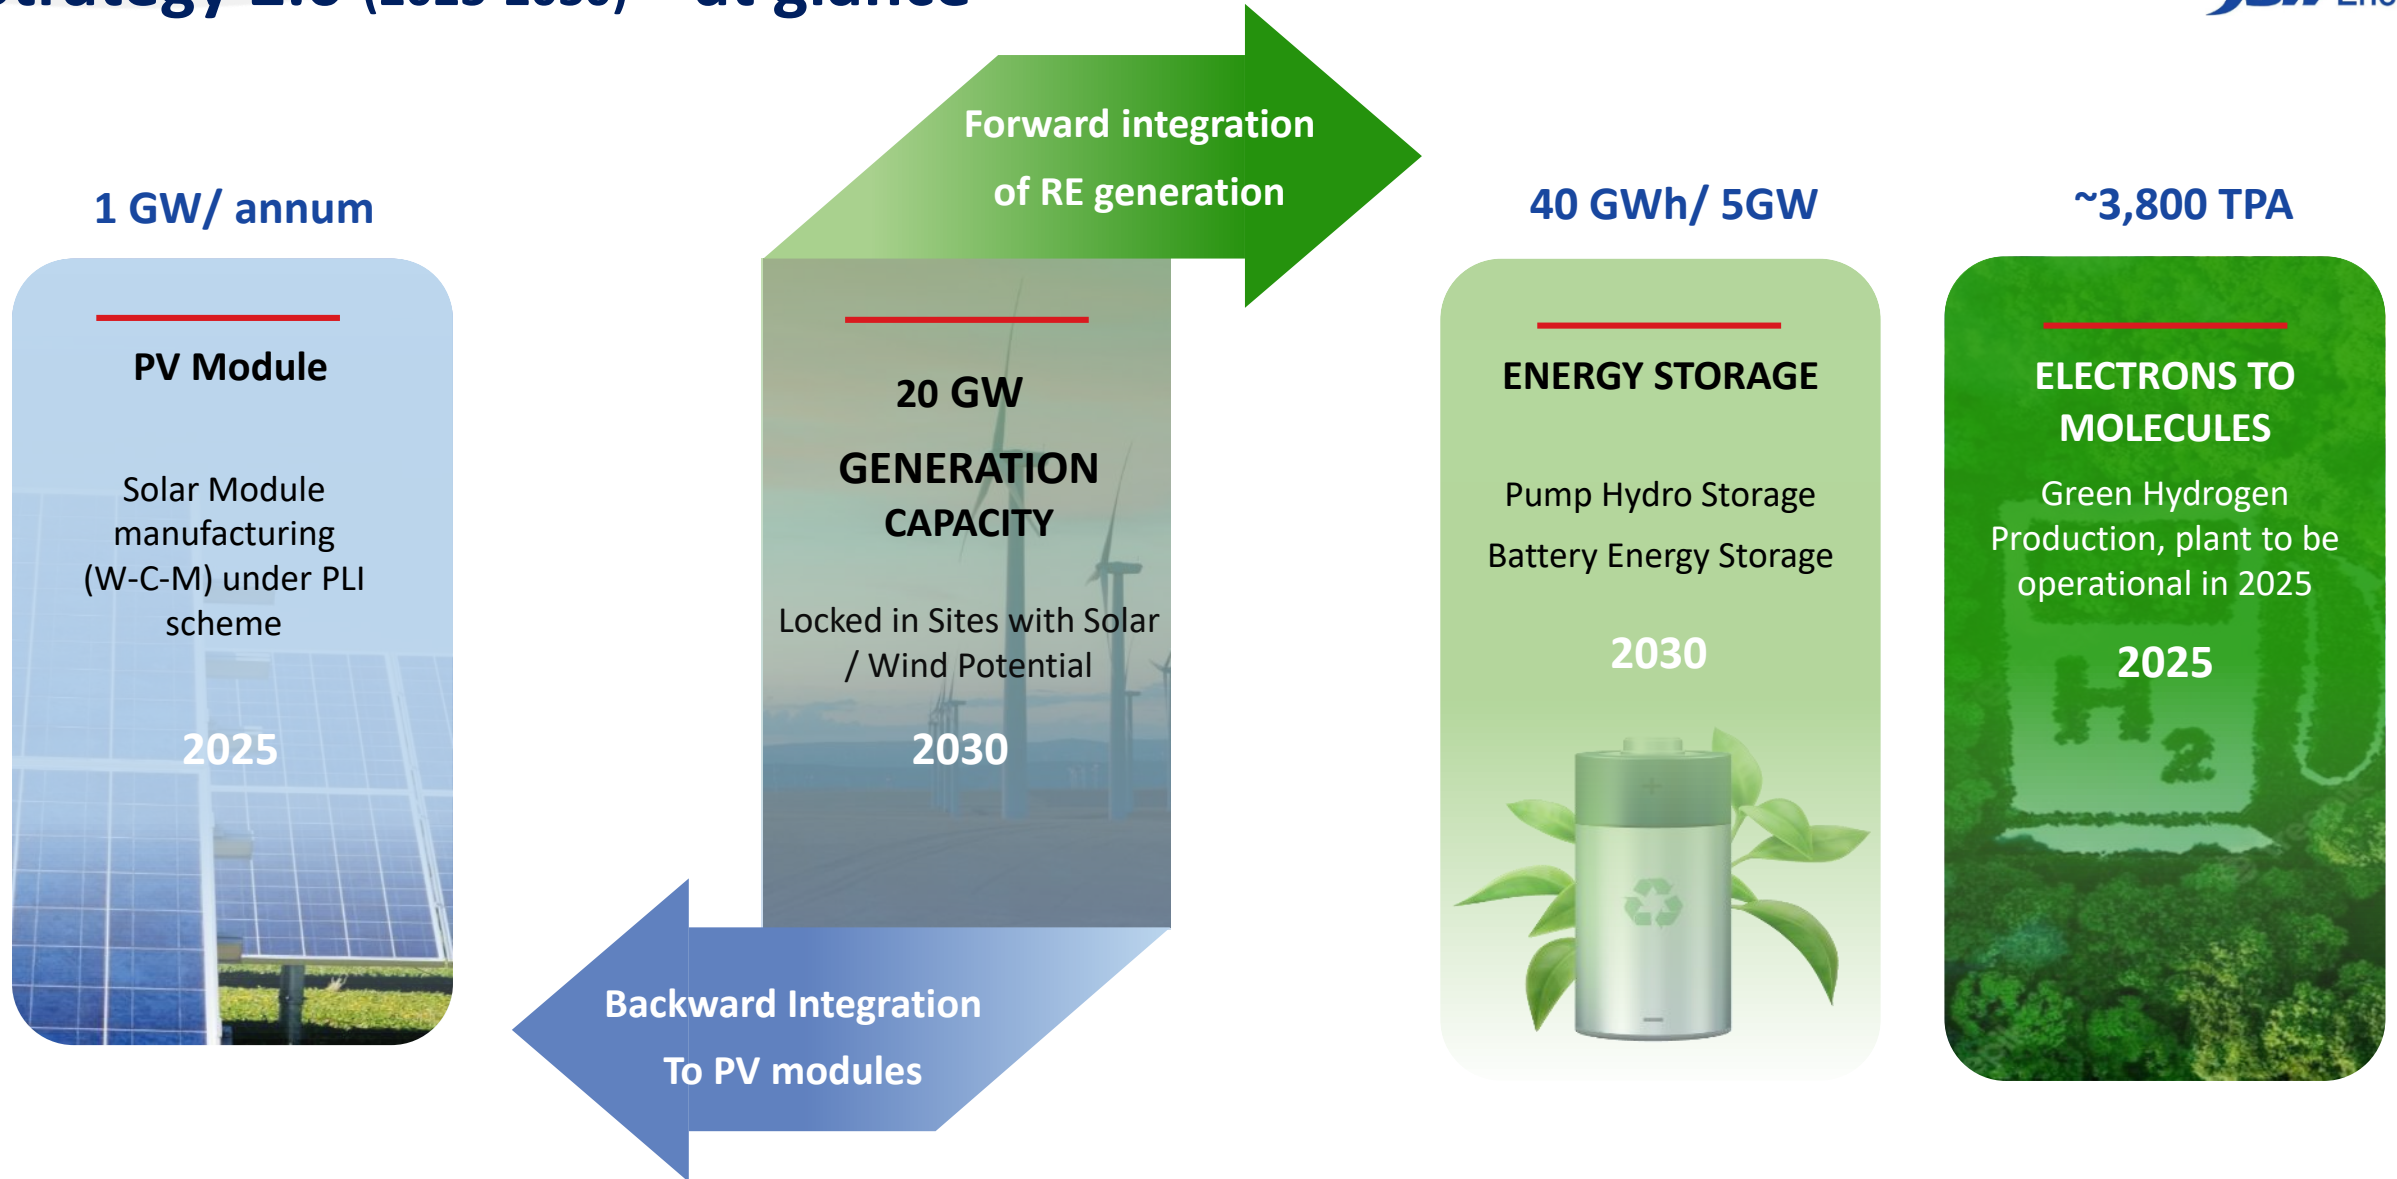

Renewable Energy + Storage Solutions required to plug increasing Peak Demand-Supply Gap going forward

- Peak Power Demand is expected to grow at a CAGR of ~6% between FY23-30
- Old & Inefficient thermal capacities to keep on retiring YoY
- Hence, Increasing gap between Peak Demand and Peak Supply from conventional power sources (Thermal+Nuclear+Hydro) will be needed to be plugged by supply from renewable + storage capacities

National Electricity Plan 2023

- Projections of the order of 396 GWh of energy storage requirement by 2031-32

Strategy 2.0 (2023-2030) – at glance

Growth driven by internal accruals

Normalised Net Debt/EBITDA to be in the range in 3.5x-4.0x

Balance Sheet Size to grow at 22% CAGR

Strategy 2.0 – 20 GW Generation + 40 GWh of Storage by FY30

Pillars for Self sustainable and Integrated road map

- Sustainable value creation focused on Cash Returns
- Internal Accruals and BS Headroom (no external capital)
- Organisational Capability and competency

Growth Multipliers

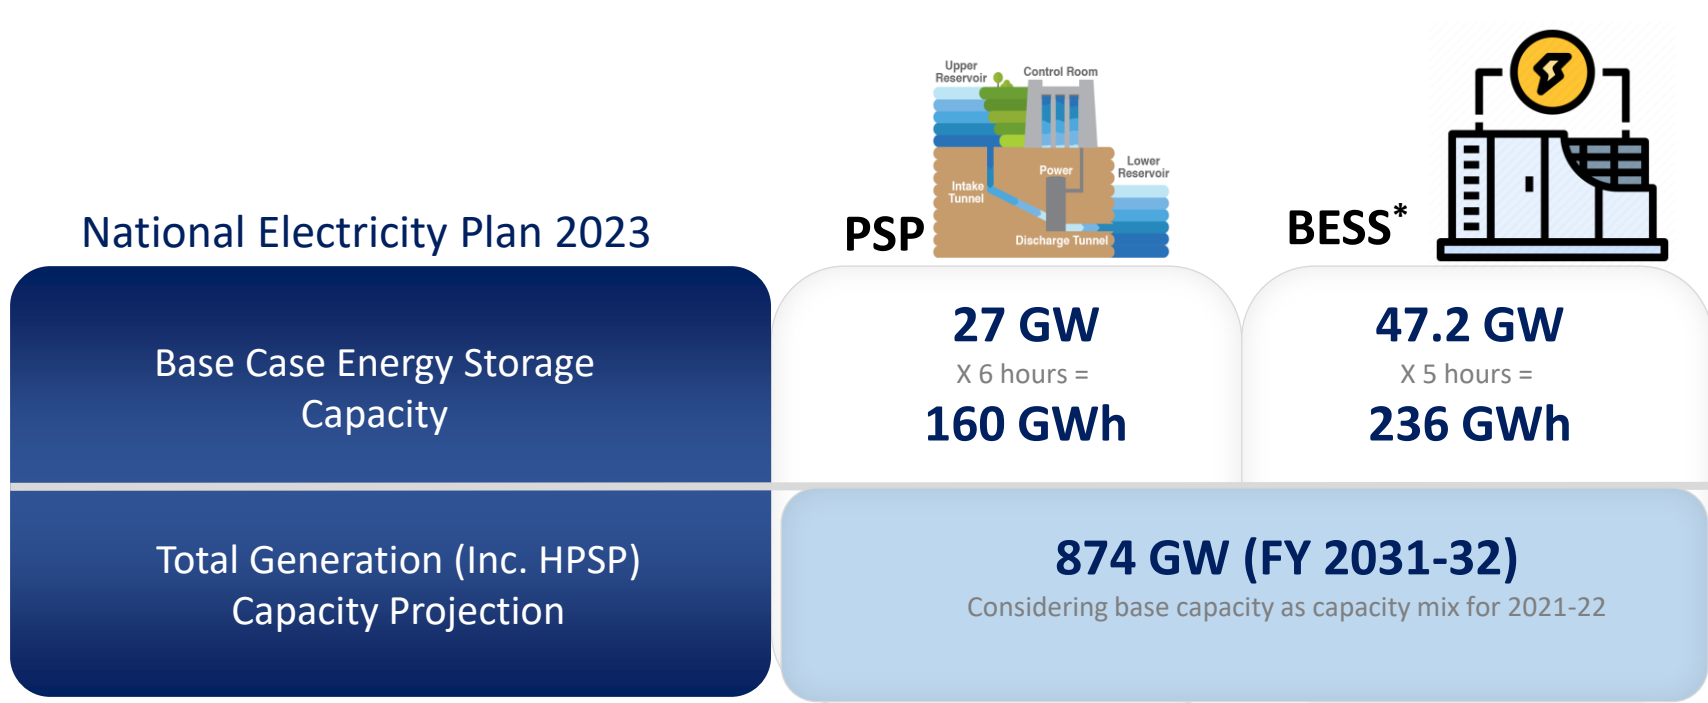

Portfolio generating healthy cash flows & 20% cash return¹

- ❖ **Steady operations and robust financials**
 - Portfolio TTM Cash PAT of ₹3,138 Crore p.a.
 - Incremental cash accruals from commissioning of Under construction projects and integration of M&A deals
- ❖ **85% of portfolio tied-up under Long Term PPA**
 - 85% of portfolio tied-up under Long Term PPA; Remaining Avg. Life of Assets/PPA: ~24years / ~18 years
- ❖ **Financial flexibility** enhanced by equity investments: JSW Steel shares: 7 Cr shares held (Value as on Dec 31, 2023: ₹ 5,640 Cr)
- ❖ Healthy receivables management and low working capital cycle

Battery Storage (BESS) and Hydro Pump Storage (HPSP)

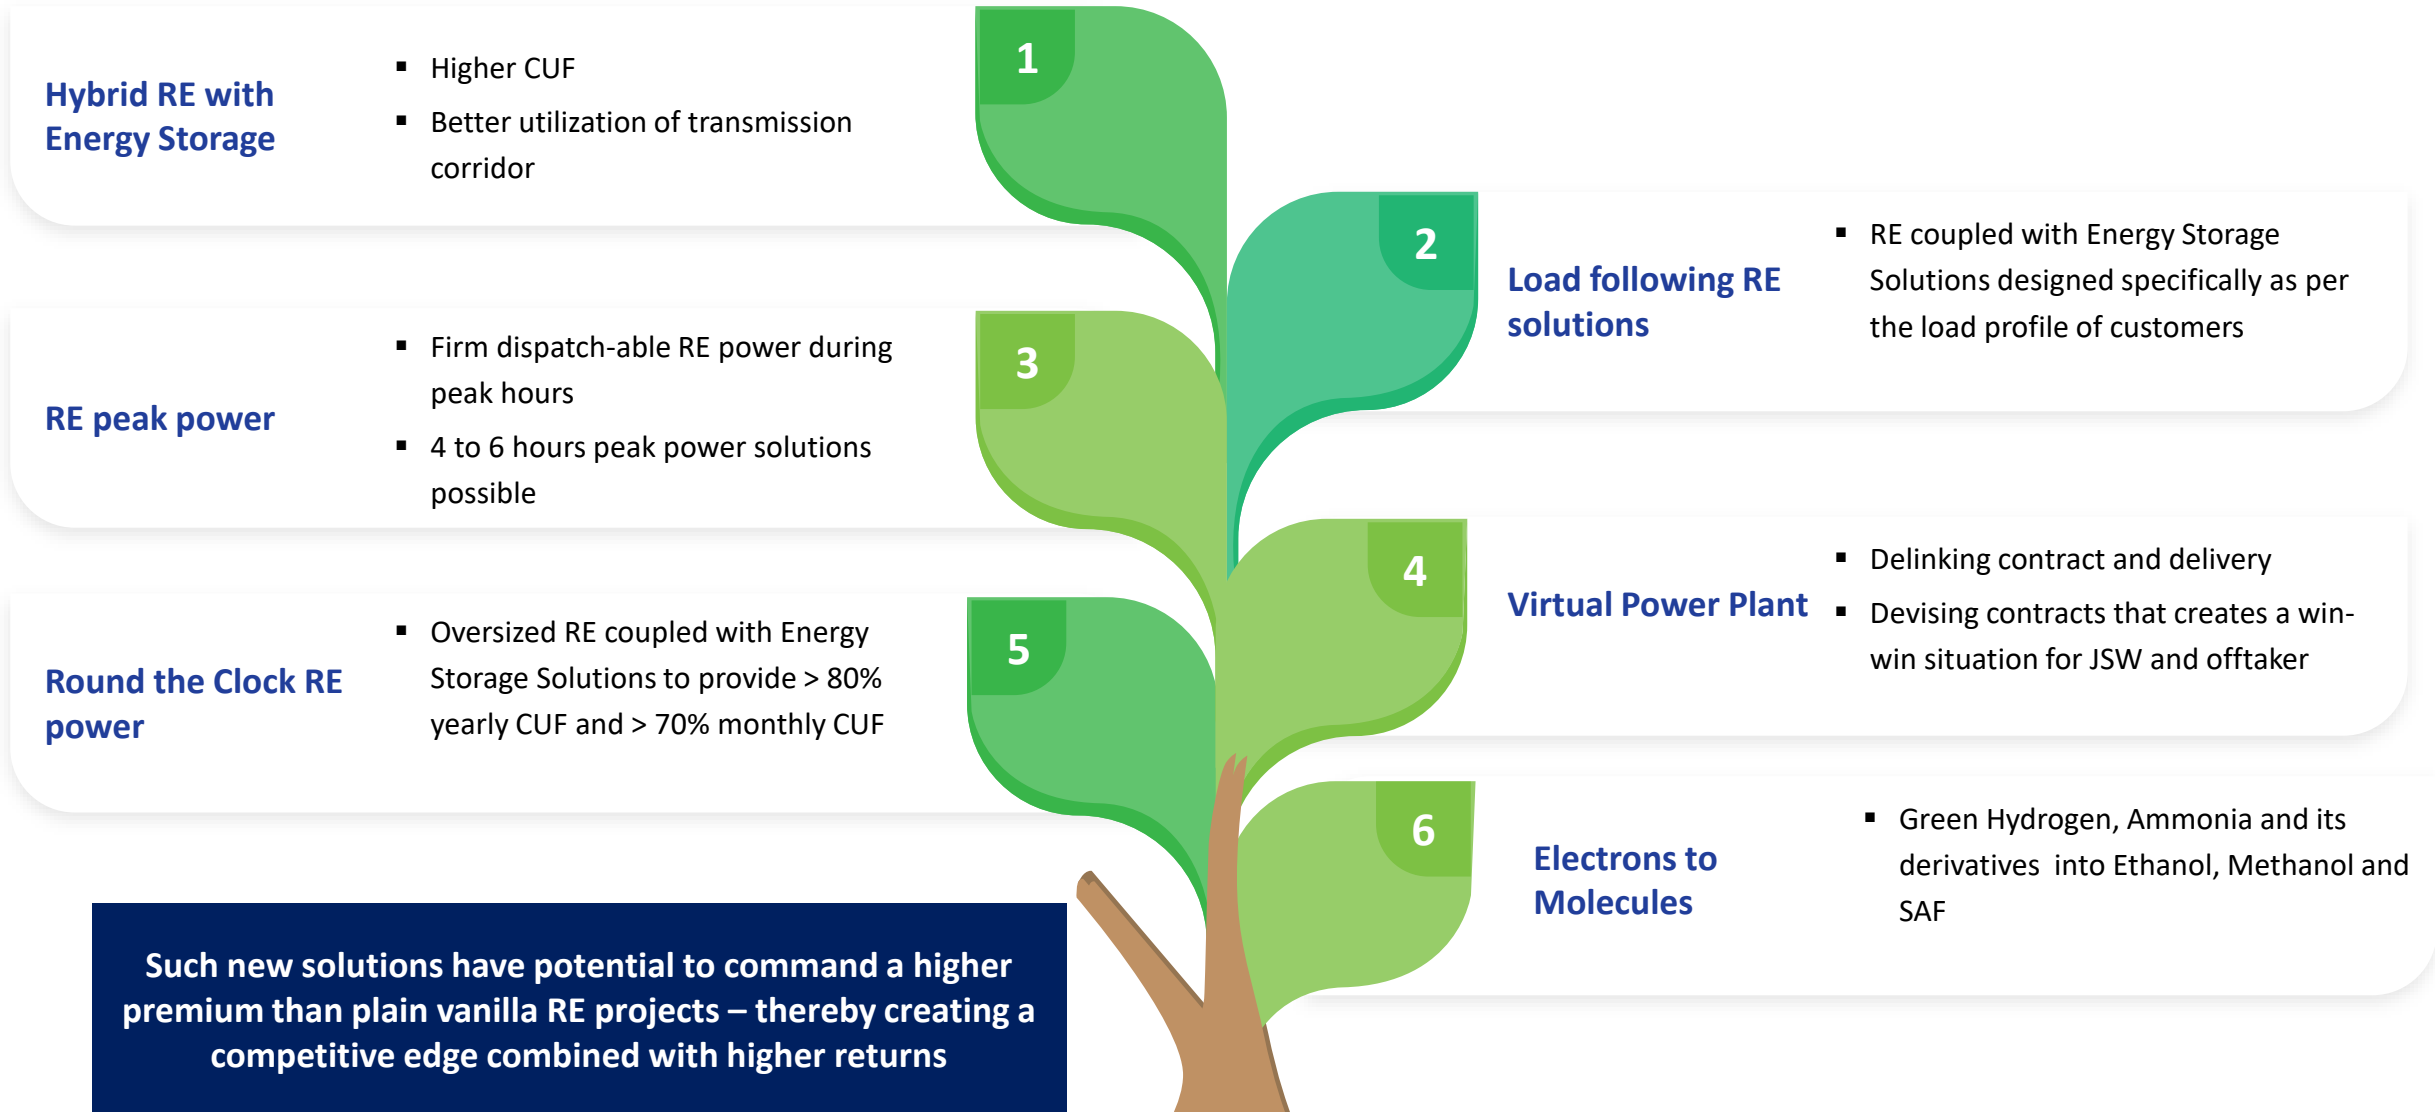

Capacity Mix for FY 2031-32

JSW Energy

- ✓ 40GWh/ 5GW of energy storage capacity by FY 2030
- ✓ 3.4GWh of storage locked in (1GWh of BESS and 2.4 GWh of HPSP)
- ✓ Large Resources secured for ~80 GWh PSP
- ✓ Growth through internal accrual
- Existing portfolio
- ✓ generating healthy CF & mid-teen equity IRR

Energy Storage – Enabler for New RE based products and services

Electrons to Molecules: Green Hydrogen Potential

Advantage India

Significant Hydrogen demand

Current demand ~6 MMT expected to grow to ~24 MMT by 2050

Huge RE potential

Existing RE capacity of ~181 GW (incl. Hydro)
Target – 50% of capacity share of RE by 2030

Low Tariffs

RE tariffs in India (INR ~ 2.5-3.0)

India's Import Bill

India is 3rd largest consumer of oil & gas, imports ~85% of oil and ~50% of Gas

Clean energy Commitment

GH adoption contributes to emission reduction & meet energy demand

Infrastructure build

Large part of India's infrastructure needs to be built out, allows better integration

JSW Energy

- Contracted India's largest Commercial Scale Plant for production of Green H₂ (Capacity- 3,800 TPA). This is towards production of Green Steel
- Signed MoU with JSW Steel for 85-90 KTPA of Green Hydrogen & 720 KTPA of Green Oxygen by 2030.

Grey Hydrogen: Currently, more than 95% of hydrogen is produced from fossil fuels via carbon intensive processes.

Blue Hydrogen: Grey hydrogen whose CO₂ emitted during production is sequestered via carbon capture and storage (CCS)

Green Hydrogen: Low or zero-emission hydrogen produced using clean energy sources

Main production route

- Steam Methane Reforming (SMR)
- Coal Gasification

Characteristics

↑ Intense CO₂
↓ Low Cost

Main production route

- SMR + CCS
- Coal Gasification + CCS

Characteristics

↓ Low CO₂
↑ High Cost

Main production route

- Electrolysis using renewables

Characteristics

↓ Zero CO₂
↑ High Cost

Progress on Strategy 2.0

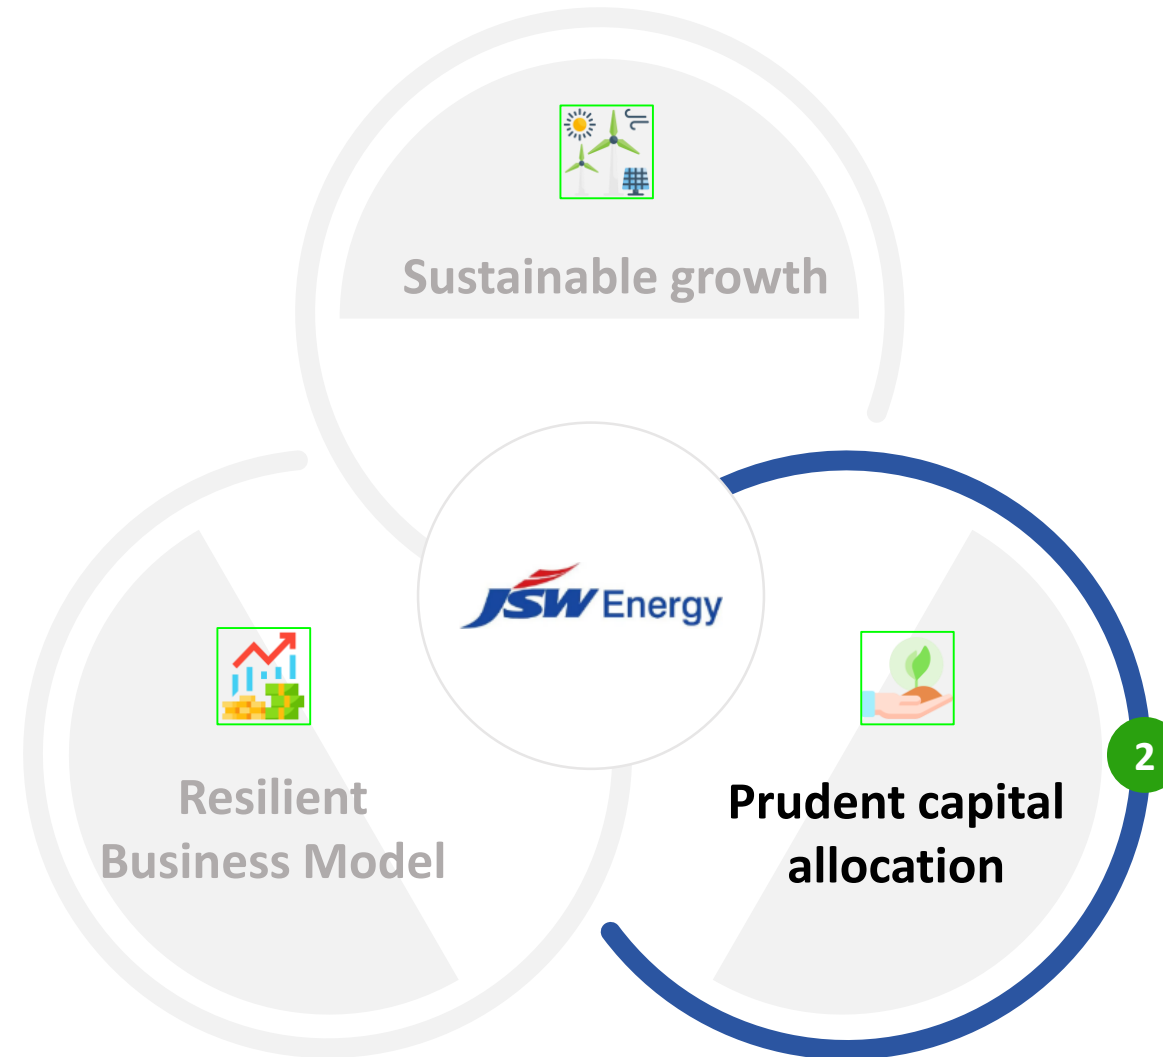

Generation Capacity (GW)

FY21	Current Operational	Ind-Barath	SECI X Wind	SECI IX Wind	Group Captive Wind	Kutehr	SECI XII Wind
Commissioning	-Unit 2 in Q4 FY24	Progressive Commissioning			Sept 2024	March 2025	
PPA	-	25 Years	25 Years	25 Years	35 Years	25 Years	
Offtaker	Open	SECI	SECI	JSW Steel	Haryana Discom	SECI	
Capital Expenditure	Total: ₹ 19,360 Cr Committed: ₹17,534 Cr Spent: ₹13,584 Cr (Including 225 MW Solar Operational)					~₹2,200 Cr	

Energy Storage (GWh)

Efficient capital allocation track record

- Ensuring mid teen returns
- Proven project execution
- Sound operating efficiency characterized by one of the lowest O&M Cost/MW

Proven project execution and operational excellence...

Prudent and consistent capital allocation strategy for growth over a 25 year history

Selective bidding to ensure mid teen returns

Successful integration of inorganic capacities

One of the lowest project execution cost in the industry

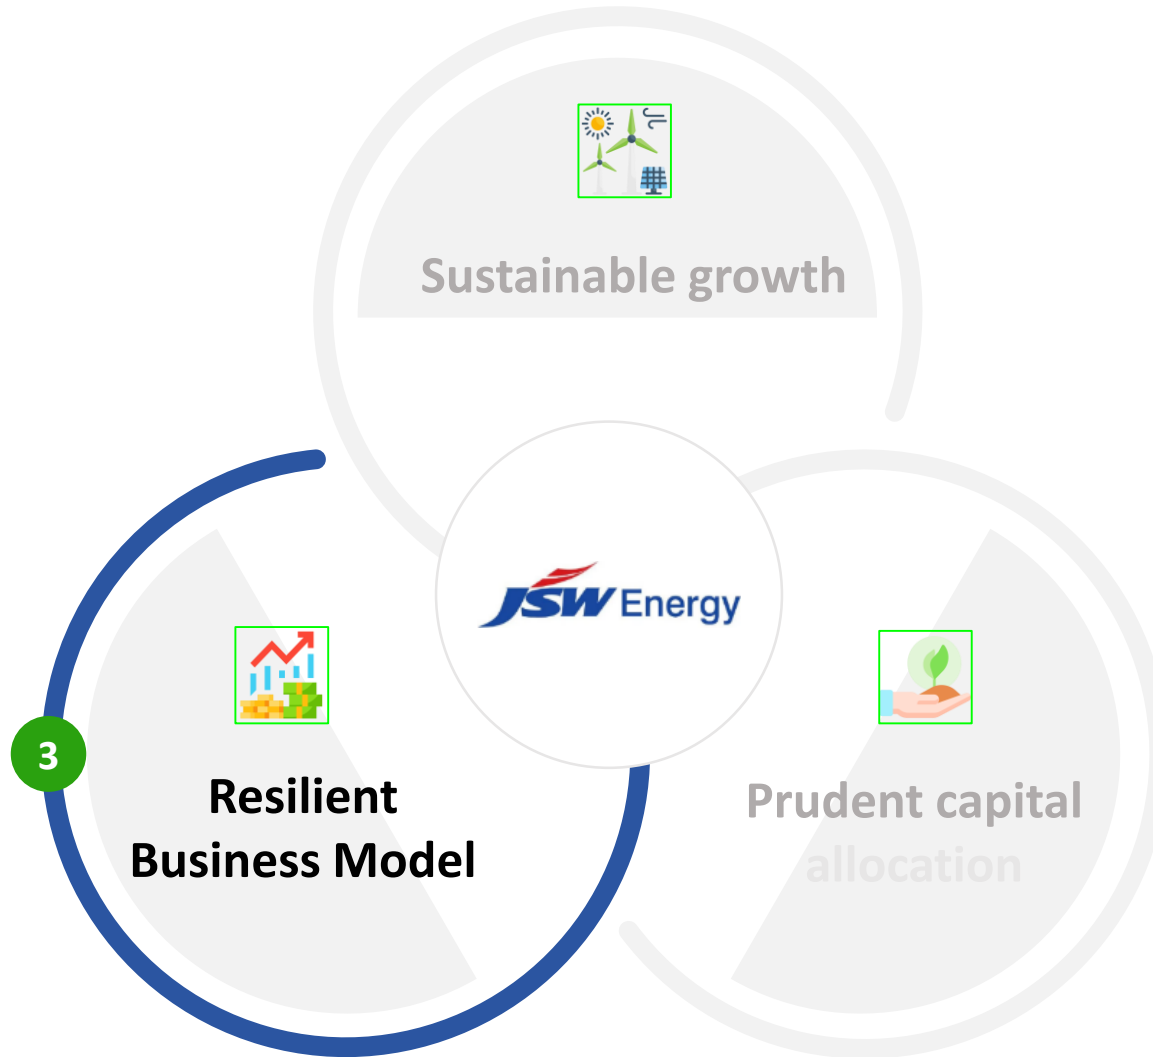

Sound operating efficiency characterized by one of the lowest O&M Cost/MW (₹ mn)

Resilient Business, Consistent Performance and Strong financials

- Steady operations and robust financials
- Robust balance sheet and cash flows.
- Internal accruals sufficient to support growth targets

Robust Balance Sheet & Cashflows

Balance sheet headroom to pursue growth opportunities

- **Strong Financials**

Particulars	As on December 31, 2023
Networth	₹ 20,976 Cr
Net Debt	₹ 26,286 Cr
Net Debt/TTM Proforma EBITDA	4.6x
Net Debt/TTM Proforma EBITDA (excl. under construction projects)	3.2x
Net Debt/Equity	1.3x
Wtd. Average Cost of Debt	8.58%
Cash PAT TTM	₹ 3,138 Cr

- **Healthy Credit Ratings and access to diverse pools of liquidity**

- India Rating & Research: IND AA (Outlook Stable)
- ICRA Ltd: ICRA AA/ Stable

- **Strong Liquidity with healthy cash balances: ₹2,867 Cr***

Steady Operations and Robust Financials

Net Generation (BUs)

Total Income¹ and EBITDA (₹ Cr)

Cash PAT (₹ Cr) and Cash Returns

ND/EBITDA for Operational Projects at 3.2x

Healthy receivables days

Steady operations and robust financial

- 85% of portfolio tied-up under Long Term PPA; Remaining Avg. Life of Assets/PPA: ~24 years / ~18 years
- Track record of strong yearly cash profits and mid-teen equity returns

Financial flexibility

- Strong leverage ratio, Net Debt to operating EBITDA of 3.2x
- JSW Steel shares: 7 Cr shares held (Value as on Dec 31, 2023: ₹ 5,640Cr)

Receivables

- All plants placed favourably in States' Merit Order Dispatch
- Payment security mechanism in force for power tied under long term PPA with discoms

1. Not comparable YoY from FY21 due to Change to Job Work Model Partially
[#] ND/Proforma EBITDA excluding debt on under-construction projects * Includes Unbilled Revenue and excluding Acquired RE Portfolio receivables

JSW Energy : Key Highlights

 Proven Execution Excellence	<ul style="list-style-type: none">✓ Proven project execution skills: Projects set-up in lowest cost & time✓ Differentiated business strategy for growth to 20 GW, driven by Renewable✓ Foraying in New Energy Platforms: Green Hydrogen, Energy Storage, Energy Products & Services
 Focus on Sustainability	<ul style="list-style-type: none">✓ Strong Focus on ESG – Leadership band with ‘A-’ score in the 2022 CDP Climate Change rating✓ Amongst the Highest rated power generation company in India by various independent ESG rating agencies - DJSI 71/100✓ To be Carbon Neutral by 2050; Committed to set science based emission reduction targets (SBTi)
 Efficient O&M	<ul style="list-style-type: none">✓ Sound operating efficiency characterized by one of the lowest O&M costs in the sector✓ Barmer, Ratnagiri and Vijayanagar Plants awarded ‘SWORD OF HONOUR’ by British Safety Council
 Steady EBITDA and Cash accruals	<ul style="list-style-type: none">✓ 85% of total portfolio tied up with LT PPA providing ~90% EBITDA and Cashflow generation in FY23✓ Two-part tariff structure mitigating fuel and forex risk
 Healthy Receivables	<ul style="list-style-type: none">✓ Receivables days at low levels in DSO terms.✓ Favorable placement in Merit Order Despatch & diversified off-takers mitigate Receivable risk
 Strong Balance Sheet	<ul style="list-style-type: none">✓ 4.6x, Net Debt/EBITDA; 1.3x Net Debt/Equity - Robust Balance Sheet✓ Healthy debt metrics to be maintained while pursuing value accretive growth✓ A healthy cash balance of ₹2,867 Cr and financial flexibility with JSW Steel equity shareholding
 Low Cost of Funding	<ul style="list-style-type: none">✓ Weighted average cost of debt at 8.58%✓ Executed attractive refinancing and debt sizing package for Acquired RE Portfolio RE assets, cost saving of > ₹240 cr✓ Raised a US\$ 707 million green bond to refinance debt for hydro entity in May’21

JSW Neo – Multiple Growth Drivers

Generation (GW)

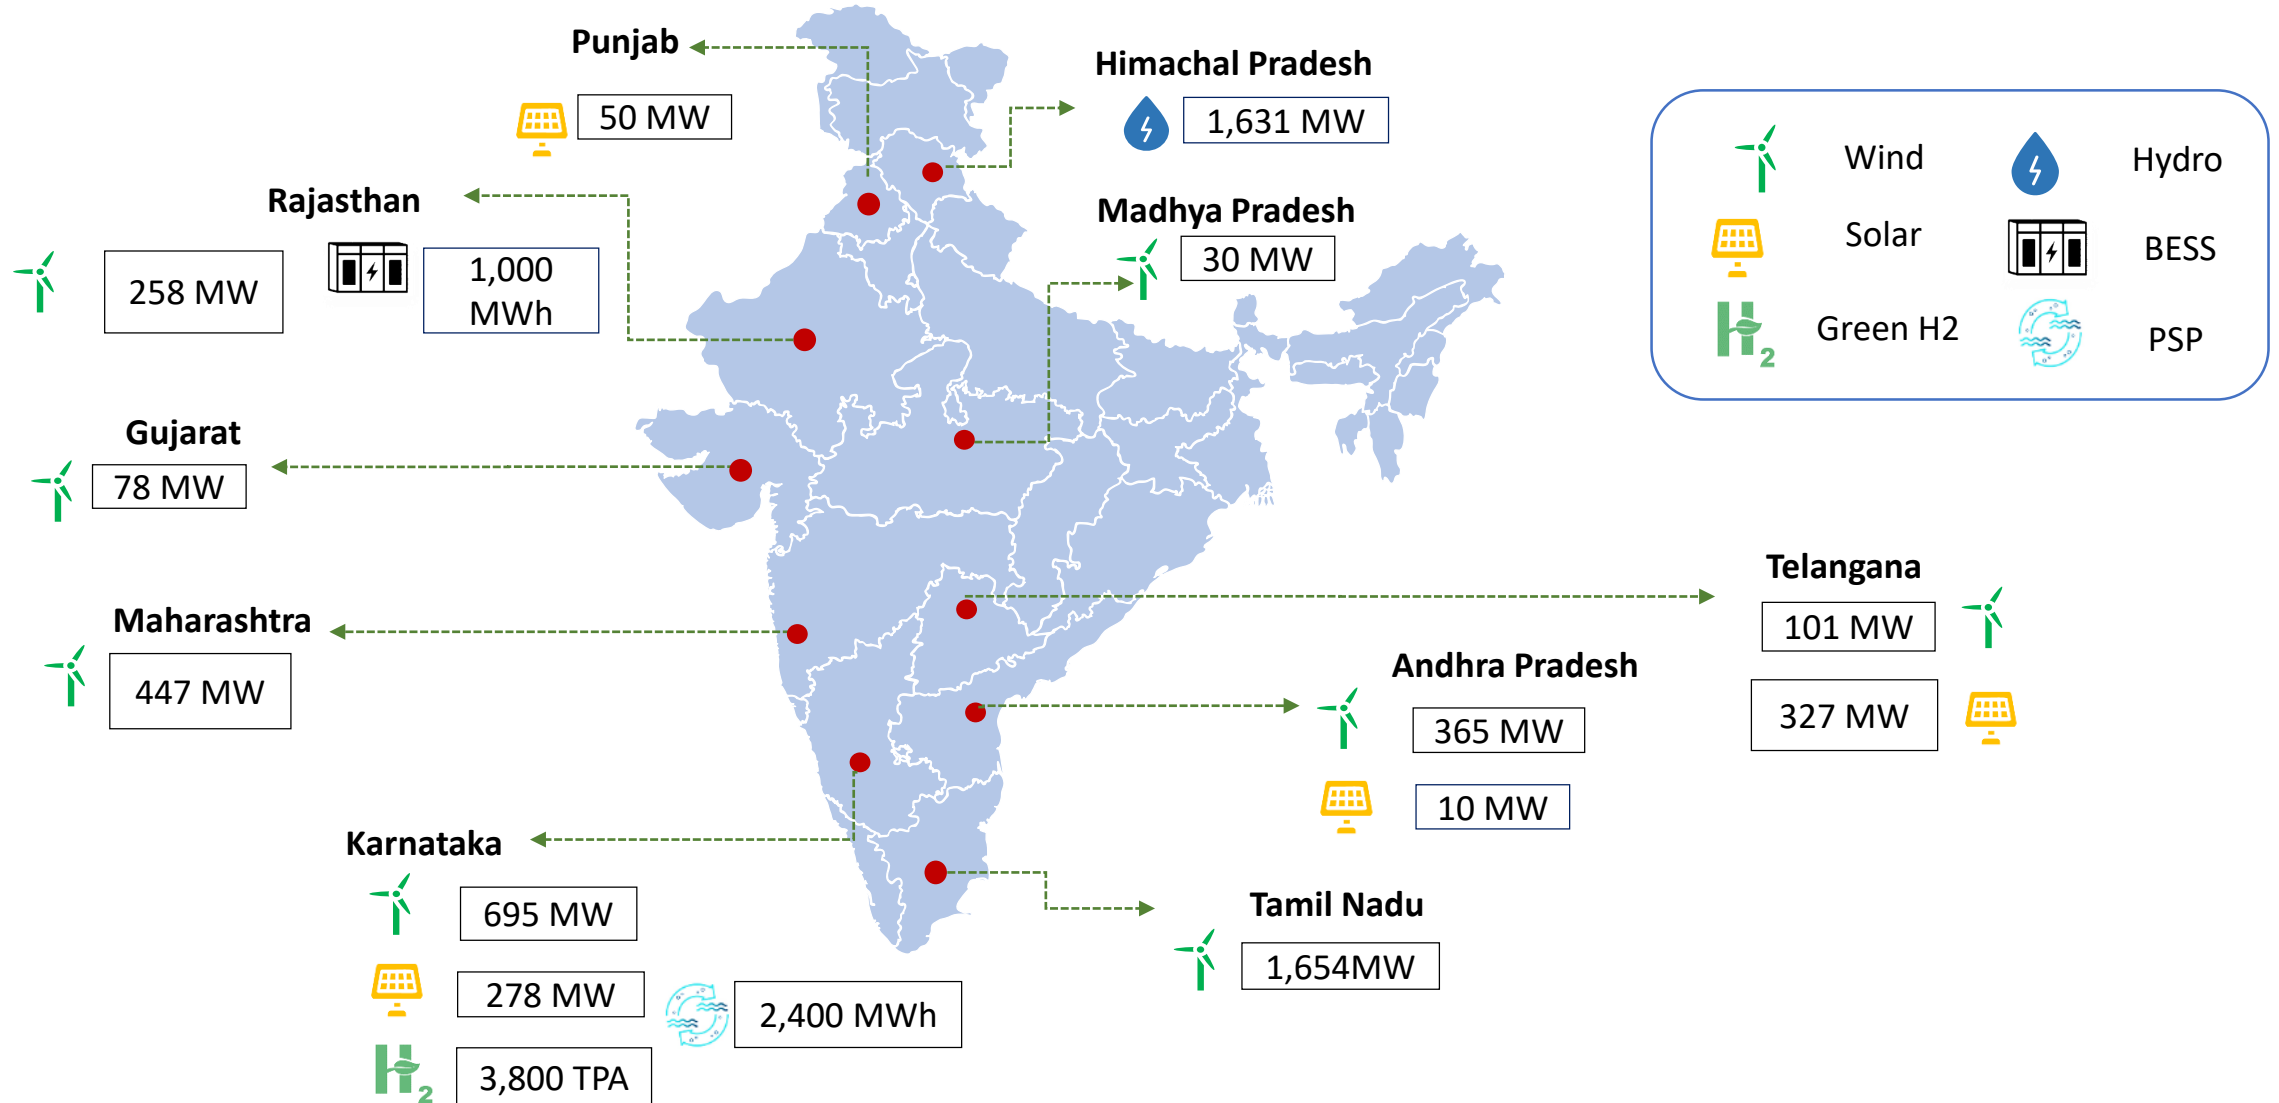

Energy Products & Services

JSW Neo - Footprint of Diverse Asset Base by CY24

Operational Capacity by CY 24 (5,924 MW)

Map of India representation – scaling may not be accurate

Energy Storage – Unique Value Proposition as an Early Mover

Battery Energy Storage System (BESS)

LoA received for 500MW/1000 MWh SECI project in Jan-23

- Build Own Operate Transfer (BOOT) with tenure of 12 years
- Battery Storage Purchase Agreement for 60% of the capacity with SECI and balance is open for sale
- Identified site is at Fatehgarh, Rajasthan
- Participate in ancillary market with the open capacity
- Expected commissioning by CY24

Particulars	SECI (BESS)
Tender capacity	500 MW / 1000 MWh
No. of hours backup	2 hours
Purchase agreement tenure	12 years
RTE	Min 85%
No of cycles per day	2

Hydro Pump Storage (PSP)

- Received LoI for 2.4GWh (300 MW x 8 hours) PSP from Power Company of Karnataka Ltd (PCKL)
 - Target commissioning : 36 months from signing of PPA
 - PPA Duration: 40 years
 - JSW's proven experience with managing the largest hydro portfolio in the private sector
- Large Resources secured for ~80GWhr PSP/ 12.3 GW

State	Capacity (GW)
Karnataka	0.4
Maharashtra	3.0
Uttar Pradesh	1.7
Rajasthan	1.2
Andhra Pradesh	1.5
Telangana	1.5
Uttarakhand	3.0
Resources Secured	12.3

Green Hydrogen Opportunity – JSW Energy’s Positioning

G

RTC RE Power at competitive prices

- Power is ~65-70% of variable cost for Green H₂ production
- Green H₂ a natural progression path for power companies banking on its competitive power cost
- JSWEL has RE resources with good CUF and profile along with large energy storage resources

R

Monetization of byproducts

- Valorization of Oxygen produced generating by-product credits
- O₂ produced in the Green H₂ to also be a part of the offtake agreement

E

Scalability

- JSWEL’s backward integration to solar module manufacturing along with secured energy storage resources, provides optionality of scaling up its Green H₂ capacity going ahead
- Low LCoE for Green H₂ provides optionality for manufacturing further downstream derivatives

E

Co-location with Offtaker

- Co-location of Hydrogen Complex with JSW Steel’s ecosystem
- Sharing of common infrastructure like water, roads, rail, etc.

N

Project Experience

- Ability to execute and build plants at costs well below industry standards
- Industry leading efficiency & high Equity IRRs

H₂

Mutually Beneficial

- Green H₂ project win-win for JSWEL and JSW Steel
- Decarbonisation for hard to abate sector (Steel)
- Using Green H₂ increases the productivity of Direct Reduced Iron (DRI) process and will help offset Carbon Tax on Exports of Steel.

Contracted Commercial Scale Green Hydrogen Project

Produce Green Hydrogen for Production of Green Steel

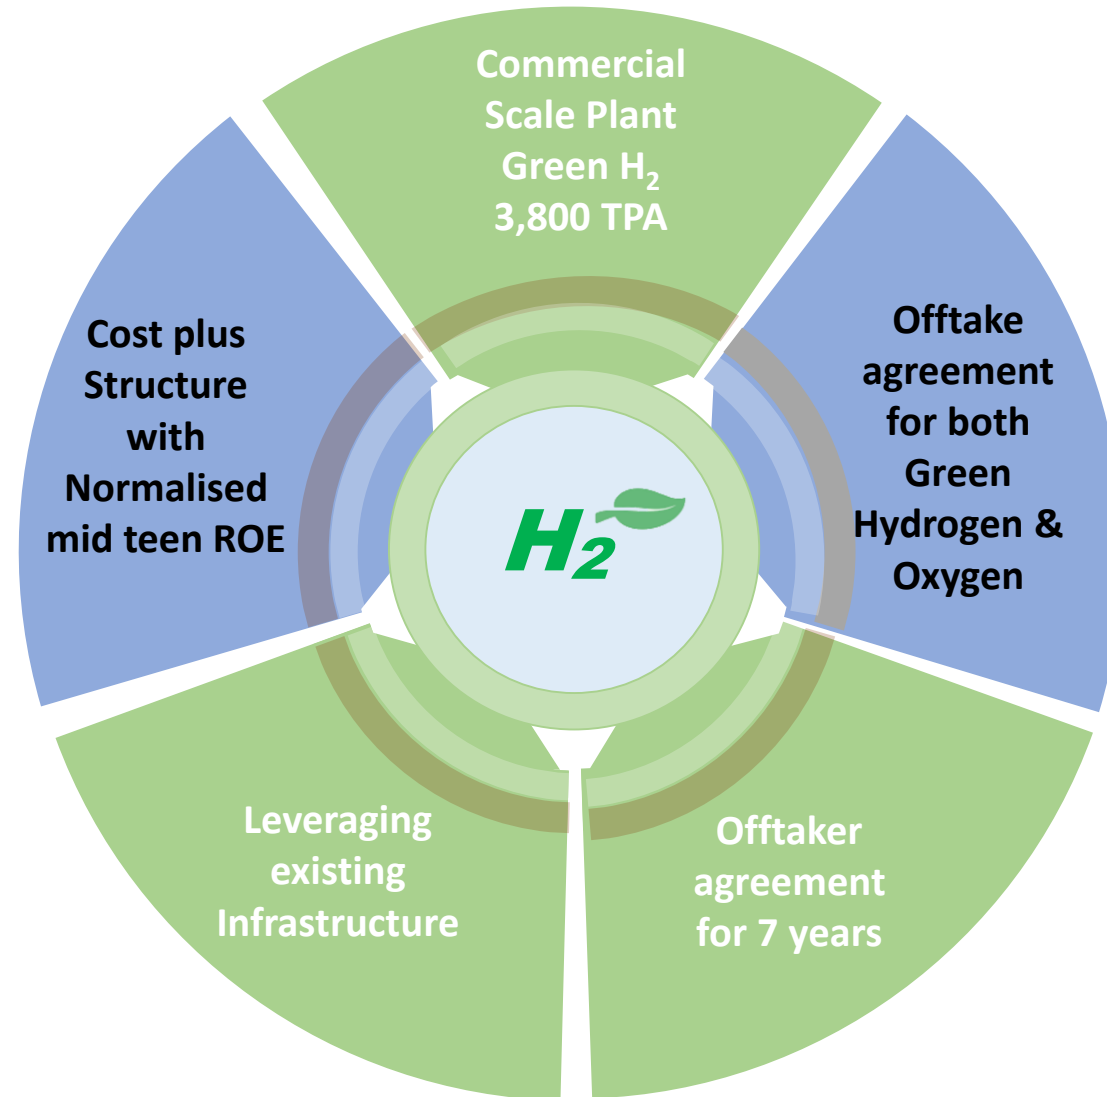

Green Power
25 MW RTC power
Secured land for plant

Power Transmission
Existing micro grid - No power banking needed

Full amortization of capex in 7 years with normative mid-teen RoE

Surety of Offtake Green Hydrogen Green Oxygen

Commissioning in 2025

NEED FOR BACKWARD INTEGRATION

Solar power is critical to transition towards green power

Tariff policy (BCD) restrictive, leading to high landed cost of cells and modules

Grid connected projects must use modules listed in ALMM

Supply reliability issue, limited domestic module capacity vs the requirement

1 GW under PLI

Wafer-Cell- Module

BACKWARD INTEGRATION AT JSW ENERGY

Allocated 1 GW of capacity under PLI for W-C-M

Supply Chain Derisking - strategic intent to utilize solar modules for captive usage

Eligible for ~₹ 320 Cr benefits under PLI scheme. Additional Incentives from State Government are under negotiation

Securing Resources – Location identified in Rajasthan, necessary approvals and ordering are in process

Capital expenditure of ~₹ 1,600 Cr

Value Accretive Business Model

Prudent selection of growth opportunities

- Bidding based on P90 generation assumption
- Conservative Interest rate assumptions
- Targeted selection- Targeting a niche segment of market offering healthy returns – Mid teen IRRs

Implementation De-risking

Life cycle approach

- Land acquisition, De- scoped project construction, power evacuation and O&M
- Power evacuation
- Proactive approach to get the PPA/PSA executed and tariff adoption

Execution Efficiency

Group's project execution excellence

- Fast execution while ensuring all safety guidelines

Protecting Returns

Value Accretive Business Model

- Bidding based on P90 generation assumption
- Conservative Interest rate assumptions
- Targeted selection- Targeting a niche segment of market offering healthy returns – Mid teen IRRs

Implementation De-risking

- Land acquisition, De- scoped project construction, power evacuation and in-house O&M
- Proactive approach to get the PPA/PSA executed and tariff adoption

Execution Efficiency

- Group's project execution: Fast execution while ensuring all safety guidelines

Enhancing IRRs

De-scoped Project Execution

- No Turn key EPC contracts: instead creating value with split package approach
- Modular commissioning; Early onset of revenues

Attractive Financing Solutions

- Debt loading coinciding with revenue generation
- Reducing Interest cost via refinancing

Operational excellence

- Cost reductions due to Self O&M
- Technology Improvement

Further Growth Opportunities

Green Energy Needs of JSW Group and C&I customers

- JSW Group has aggressive growth plans in Steel, Cement and Paints businesses providing opportunities for group captive projects

Power to X (PtX): Green Chemicals

- Green Hydrogen and Ammonia derivatives
- Green Methanol and derivatives

Energy Storage: Hydro PSP and BESS

Value Accretive M&A opportunities

Growth Framework leading to industry-leading returns

Single digit to lower teen IRR%

Mid-teen IRR %

High-teen Returns Realized

Equity IRRs

Current market returns due to highly competitive tariffs¹

Pre-Bid Preparation

- Bidding with conservative assumptions
- Targeting a niche market segment offering healthy returns
- Pre-bid resources identification to reduce uncertainty on land & connectivity

Project Execution

- No Turn key EPC contracts: instead creating value with split package approach
- Modular commissioning; Early onset of revenues
- Debt loading coinciding with revenue generation

JSW Energy Target Returns

Targeting mid-teen post-tax equity IRRs

Potential Upside Levers Post COD

- Cost reductions due to Self O&M
- Technology Improvement
- Reducing Interest cost via refinancing

Realized Returns

Enhancement In Returns Realized

1- Company market analysis; COD: Commercial operations date; IRR: Internal Rate of Return

Acquired RE Portfolio

Asset Optimisation & Performance Improvement progressing well

Acquired RE Portfolio Progress on Track

Acquired RE Assets EBITDA

Acquired RE Portfolio Net Debt/EBITDA

JSW Neo - Acquired RE Portfolio

Net Generation (MUs)

PLF

Segmental Revenue from Operations (₹ Cr)

EBITDA (₹ Cr)

Operational Highlights

- Net generation increased 16% YoY driven by 22% increase in wind generation

Financial Highlights

- During the quarter revenue of ₹ 254 Cr resulted in EBITDA of ₹ 201 Cr
- For 9M FY24 the revenue and reported EBITDA stands at ₹ 1,280 Cr and ₹ 1,132 Cr respectively (₹ 1,160 Cr on Proforma basis)

Acquired RE - Progress on track

Wind Generation (MUs)

Wind Machine Availability (%)

Solar Generation (MUs)

Solar Plant Availability (%)

Receivables Cycle Improving

Strong collection in Acquired RE Portfolio's Receivables*

Focused O&M Interventions leading to strong billing/collection growth

Operating efficiency reflecting in strong generation and billing growth

Continued focus on collection efficiency supports further reduction in the receivables

■ Billing (Indexed to 100) ◆ Collection Including LPS

Optimise Receivables Cycle to Healthy Levels within 12 months

Under Construction Projects

Acquired RE Portfolio Solar Plant (Hungund, Karnataka)

JSW Neo- Wind Power Projects – 2.3 GW

Wind Projects (SECI IX,X, XII and Group Captive)

- SECI IX (810MW) : 51 MW Commissioned
- SECI X (450 MW) : 232 MW Commissioned
- Approx 2 GW is under construction and to be commissioned by CY24

Barrage & Intake

- Barrage concreting completed 86%
- Erection of spillway radial gate in advanced stages

Tunneling & Concreting

- Completed tunneling work ~100%
- Completed HRT lining ~25%

Power-House works

- Power house civil works completed for Unit-1 & Unit-2
- Erection of draft tube liners, spiral casing and stay ring complete in all the three units

JSW Energy - Ind-Barath Unit 2 (350 MW)

Revival works in Progress
