2. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of Company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. Attention is invited to note 2 to the Statement regarding the reasons for initiating exercise of assessment of recoverable amount of investment of Rs. 100.23 crore in equity shares of an associate and of recoverability of loan of Rs. 299.11 crore to a subsidiary. Pending conclusion of the said exercise, we are unable to comment on the impairment/provision, if any, which may be required in respect of the carrying amounts of the said assets.
4. Based on our review conducted as stated above, except for the possible effects of the matter described in paragraph 3 above, nothing has come to our attention that causes us to believe that the accompanying Statement has not been prepared in accordance with the aforesaid Indian Accounting Standards and other accounting principles generally accepted in India and has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as modified by Circular No. CIR/CFD/FAC/62/2016 dated July 5, 2016, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Consolidated Financial Performance Review and Analysis:

During the quarter, total Income from Operations was ₹ 2,220 crore as against ₹2,099 crore in the corresponding quarter of the previous year, an increase of 6%, largely due to better merchant realisations and increase in other income.

The fuel cost for the quarter increased by 8% YoY to ₹ 936 crore, primarily due to increase in international prices of coal.

EBIDTA before exceptional items for the quarter was ₹ 1,053 crore as against ₹ 1,014 crore in the corresponding quarter of the previous year, an increase of 4%, primarily due to better merchant realisations, higher other income and savings in operation and maintenance costs, partly offset by higher fuel costs.

Finance costs have declined to ₹ 391 crore from ₹ 436 crore in the corresponding quarter of the previous year primarily due to interest rate reductions achieved through refinancing arrangements as well as prepayment/repayment of borrowings.

Led by the above and lower effective tax rate, the Company earned a Net Profit of ₹ 297 crore as against ₹ 217 crore in the corresponding quarter of the previous year. Total Comprehensive Income of the Company for the quarter stood at ₹ 612 crore as against ₹ 398 crore in the corresponding period of the previous year.

Update on EV Business:

During Q2FY18, the Company signed an MoU with the state government of Gujarat for setting up facilities for manufacture of electric car and storage battery. The Company is in the process of developing its product & technology strategies, business partnerships for technology and engineering as well as building the organisational set-up and core capabilities. A suitable SPV for the project is also being planned.

New Initiatives:

The Board of JSWEL has approved capex budget for setting up new thermal generation capacity of 36MW for JSW Cement under long term PPA. The Company is working towards developing capability in the Renewable Energy space and plans to set up 7MW solar power units consisting of 6MW capacity for JSW Cement under long term PPA and 1MW capacity for JSW Energy's captive consumption. The Company is also pleased to announce securing a ₹ 600 crore line of credit at attractive interest rate from SBI in partnership with World Bank for funding rooftop solar power projects.

Outlook:

India's industrial production growth has been range bound for the last one year thereby constraining power demand. In the near term, industrial production has been affected by the destocking led by GST introduction and slowdown in exports. With the GST transition nearing completion and exports picking up in Sep-2017 (merchandise exports rose ~26%YoY), these headwinds are likely to be receding.

On the macroeconomic front, the government's package of ₹ 2.11 trillion announced last week to recapitalize PSU banks and proposed banking reforms are likely to boost lending and aid economic growth. Simultaneously, the government has also approved the biggest highway construction plan so far of ₹ 6.9 trillion over next 5 years providing further impetus to growth prospects going ahead.

Indian power demand grew at a steady ~5% in H1FY18. With capacity growth reversing its trajectory and declining by 975MW QoQ (excluding renewable energy capacity changes), supply side pressures abated to some extent for the sector. Merchant volumes and tariff showed healthy upward movement. In the longer term, led by the economy boosting measures mentioned above, benefits of the GST regime, steady operational improvement under UDAY Scheme, "Power for All" by 2019 initiative (including the household electrification scheme, "Saubhaya", announced in September 2017 to provide electricity connections to 40mn unconnected rural households by Dec 2018), power demand is expected to grow steadily. With capacity addition head-winds receding, a better demand-supply scenario is expected in the medium term for the power sector.
