

Exporters may get incentives based on R&D, specific clusters under new FTP

PRESS TRUST OF INDIA
New Delhi, January 22

production parameters, product-specific clusters. Rebate can also be given on state levies," the official added.

Under an FTP, the government announces incentives for exporters. Currently, duty benefits are provided under merchandise export from India scheme (MEIS) and services export from India scheme (SEIS).

EXPORTERS ARE LIKELY to get incentives based on parameters like research and development, product-specific clusters and production pattern under a five-year foreign trade policy (FTP) to be released later this year, an official said.

Under an FTP, the govt announces incentives for exporters. Currently, duty benefits are provided under merchandise export from India and services export from India schemes

Recasting of the existing support measures assumes significance as the US has challenged these schemes under the dispute settlement mechanism of the WTO. America has alleged that these incentives are harming American companies.

The commerce ministry is working on recasting the existing export incentive schemes in line with the global trade norms of the World Trade Organization (WTO).

The last FTP was released in 2015 for five years. It provided guidelines for enhancing exports with an overall objective of pushing economic growth and job creation.

"We are recasting our export incentive schemes. In the new FTP, they would be in compliance with the global trade rules. The new incentives could focus on R&D activities,

The official said there are several product-specific clusters in sectors such as automobile, textiles and leather and providing direct incentives to them would help boost manufacturing and exports.
