- Inspite of a challenging atmosphere and difficult circumstances, the Company has been able to produce positive results. The Company’s profitability for the year was affected due to steep depreciation of rupee during the first half of the year.
- The unexpected depreciation and fluctuation of the currency has resulted in foreign exchange losses. For the current year effective hedging policies are in place to avoid such losses.
• The power and fuel cost has increased due to the merger of JSW Ispat Steel Limited besides pricing & availability of natural gas.

• The Company’s investments in overseas subsidiaries are of a strategic nature. The situation of US Plate and Pipe Mill is gradually improving, however lower capacity utilisation due to lower demand is impacting profitability. Capacity utilization from Plates Mill is expected to improve as US Economy is showing signs of growth.

• The Joint Venture, Vallabh Tin Plate Pvt. Ltd., is fully operational and the unit is profitable.

• In respect of the de-allocation of Gourangdih ABC Coal Block, a writ petition has been filed against the same before the Hon’ble High Court of Himachal Pradesh. The matter is sub-judice.

• The coke oven and pellet plant set up by Amba River Coke Limited has started operations.

• Forest Development Tax is a tax levied by the Karnataka Government on iron ore.

• There is low demand for Carbon Credit due to the slowdown in Europe.

• The target of the Company is to increase of proportion of value added products to 40% of total volume.

• The Company’s investment in the JV Company, JSW Severfield is a strategic investment. In India most of the buildings are cement structured but in Europe & USA major buildings are made of steel. To promote steel structural buildings, the Company, in collaboration with Severfield Rowen, has formed this company.

• Outstanding debt of Rs. 185 crores is recoverable from one customer. The Company expects to recover the dues.
